

IBM's Client Innovation Center at Baton Rouge

Since opening in 2013, IBM's Baton Rouge Center has been delivering high-quality, cost-competitive technology services for clients across North America.

The city of Baton Rouge plays a key role in expanding our expertise in Business Transformation and Hybrid Cloud Services.

About our CIC's

They are recognized as the primary contact for the practice, driven by deep expertise in Cloud Hyperscalers, Red Hat OpenShift, ISVs, and IBM tech platforms. We bring together top talent across consulting, development, design, testing, data, and project management.
