Extended Support Offering Preview and end of marketing

For clients that need additional time to migrate to a supported release of IBM i, IBM intends to announce a fee-based extended service offering for the IBM i Version 6.1 operating system. Hardware maintenance is not affected by this announcement.

IBM's statements regarding its plans, directions, and intent are subject to change or withdrawal without notice at IBM's sole discretion. Information regarding potential future products is intended to outline our general product direction and it should not be relied on in making a purchasing decision. The information mentioned regarding potential future products is not a commitment, promise, or legal obligation to deliver any material, code, or functionality. Information about potential future products may not be incorporated into any contract. The development, release, and timing of any future features or functionality described for our products remains at our sole discretion.

Effective December 9, 2014, IBM will withdraw from marketing, programs and features licensed under the IBM International Program License Agreement.
