At a glance

IBM® Lotus® Quickr™ 8.5 for WebSphere® Portal delivers:

- New user experience
- Native bridging with Enterprise Content Management (ECM) repositories
- More administrative control
- New library portlet to integrate Lotus Quickr content into WebSphere Portal applications
- Infrastructure update and expansion, including support for IBM WebSphere Portal V6.1.5

IBM Lotus Quickr Connectors 8.5 provides:

- Users with the ability to easily access and contribute shared content in Lotus Quickr team places and ECM systems directly from popular desktop applications
- Integration with Lotus Quickr and ECM systems from Lotus Notes®, Lotus Sametime®, Lotus Symphony™, Microsoft® Office, Microsoft Outlook, and Microsoft Windows® Explorer

Overview

IBM Lotus Quickr 8.5 for WebSphere Portal provides user interface enhancements, increased integration, streamlined administration, and infrastructure updates. It includes:

- Updated browser theme to give users a consistent experience across IBM products, including Lotus Connections and WebSphere Portal.
- Simplification of frequent user actions such as navigation within a place and common library, and document management actions.
- New rich text editor for browser-based creation of content. The same text editor is used across IBM products, such as Lotus Connections, giving end users a common experience.
- Increased integration between Lotus Quickr and Lotus Connections, including top-line navigation, use of the person card, and integrated search menu.
- Simplification of member management inside Quickr places to facilitate end-user self-service.

- New place catalog with tag-based navigation that simplifies locating places, particularly in large Lotus Quickr deployments.
- Enhanced integration with Enterprise Content Management (ECM) repositories, including new "direct connect" Web-based component that allows users to natively display and interact with ECM content from within a Lotus Quickr place.
- Parametric search of ECM content.
- Enhancements to Lotus Quickr Connectors to better support ECM content (refer to Software Announcement [ZP08-0602](#), dated December 09, 2008).
- Easier, more flexible management tools with new administrator console that provides more complete user and place statistics, enhanced backup and recovery tools, and simplified place customization.
- New library portlet to integrate Lotus Quickr content into WebSphere Portal applications.
- Support for WebSphere Portal V6.1.5.
- Other infrastructure platform updates including AIX® V6.1 64 bit, Windows 2008 64 bit, SLES 10, SLES 64 bit on System z®, Oracle 10.2, Internet Explorer 8 on Windows, Firefox 3.5 on Windows, Linux®, and Mac.
- Using Lotus Quickr Connectors 8.5 so users can easily and naturally work together on content and access content contributed by colleagues directly from their favorite desktop applications. The connectors support check-in and check-out to help manage the process of multiple authors, and version control to ensure that everyone always has the latest copy of a document. Lotus Quickr Connectors 8.5 is included with other Lotus Quickr offerings and is also available separately for access to other content repositories such as ECM systems.
- Mandatory metadata enforcement - new, simple and intuitive interface to enter and enforce entry of metadata for documents.
- Notes® integration - simple drag-and-drop of Lotus Notes e-mails into Lotus Quickr places.
- Sametime integration - drag-and-drop documents into a Lotus Sametime chat windows and Web conferences.
- Microsoft Office integration - native integration into the Office 2007 "ribbon."
- User-initiated publication to a content server that helps manage performance -- particularly useful in low bandwidth situations.
- Launch a search dialog from the context of a desktop connector.
- Support for third-party authentication tools, such as SiteMinder and Tivoli® Access Manager.
- Support for single sign-on tools, such as SPNEGO.
- Support for multiuser installation of the connectors on a shared workstation.

Key prerequisites

Refer to the [Hardware requirements](#) and [Software requirements](#) sections for details.

Planned availability date

June 15, 2010: Electronic availability

July 9, 2010: Media availability

Statement of direction

It is the intention of IBM Lotus to continue to offer feature-rich, scalable, security-rich, easy-to-use software for organizing, managing, and sharing everyday content and for online team collaboration, regardless of company size and industry focus.

All statements regarding IBM's plans, directions, and intent are subject to change or withdrawal without notice.

Reference information

Refer to Software Announcement [ZP09-0210](#), dated May 26, 2009.

Education support

IBM training provides education to support many IBM offerings. Descriptions of courses for IT professionals and managers are on the IBM training Web site

<http://www.ibm.com/services/learning/>

Contact your IBM representative for course information.

IBM Software Services for Lotus Education provides education to support many Lotus offerings. For a complete list of offerings visit the Web site at

<http://www.ibm.com/software/lotus/training>

Offering Information

Product information is available via the Offering Information Web site

<http://www.ibm.com/common/ssi>

Also, visit the Passport Advantage® Web site

<http://www.ibm.com/software/passportadvantage>

Publications

No publications are shipped with these products.

The IBM Publications Center

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided. Payment options for orders are via credit card (in the U.S.) or customer number for 20 countries. A large number of publications are available online in various file formats, and they can all be downloaded by all countries.

Technical information

Specified operating environment

Hardware requirements

Visit

<http://www.ibm.com/lotus/quickr>

Software requirements

Visit

<http://www.ibm.com/lotus/quickr>

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

Planning information

Customer responsibilities

Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express®. Product upgrades and technical support are provided by the Software Subscription and Support (also referred to as Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and technical support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

Packaging

IBM Lotus Quickr 8.5 will be distributed via a media package and electronic software distribution (ESD).

IBM Lotus Quickr 8.5 media package is distributed in one package with the following:

- IBM Lotus Quickr 8.5 product CDs.
- Soft copy product documentation including readme files are included on the product CDs.

The Licence Information form numbers for IBM Lotus Quickr are:

- IBM Lotus Quickr for WebSphere Portal: L-JYUN-83UHXB
- IBM Lotus Quickr Connectors: L-CFRR-84QQVP

Security, auditability, and control

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

Global Technology Services

Contact your IBM representative for the list of selected services available in your country, either as standard or customized offerings for the efficient installation, implementation, or integration of this product.

Ordering information

For ordering information, consult your IBM representative or authorized IBM Business Partner, or visit

<http://www-306.ibm.com/software/support/pa.html>

This product is only available via Passport Advantage. It is not available as shrinkwrap.

Charge metrics definitions

Processor Value Unit (PVU)

PVU is a unit of measure by which this software product can be licensed. PVU entitlements are based on processor technology (defined within the PVU table* by processor vendor, brand, type and model number). IBM continues to define a processor, for purposes of PVU-based licensing, to be each processor core on a chip. Each software product has a unique price per PVU. To determine the total cost of deploying an individual software product in a specific hardware environment, you must take the following steps:

1. For each processor core in the hardware environment on which the software product is to be licensed, determine the PVU requirement based on its processor technology per the PVU table*.
2. Add the PVU requirements for all processor cores in the hardware environment.
3. Multiply the software product's price per PVU by the total number of PVUs required as determined in step 2 above.

PVU entitlements are specific to a software product and may not be exchanged, interchanged, or aggregated with PVU entitlements of another software product.

Unless you have deployed eligible sub-capacity products according to the sub-capacity* terms, you must obtain PVU PoEs for the maximum number of activated** physical processor cores in the hardware environment made available to or managed by the software product. This is also referred to as full capacity licensing.

** Activated processor cores are physical processor cores that are available for use in a server. They include processor cores:

- That are activated (available for use) when the server is shipped by the manufacturer
- That are activated subsequently through activation codes purchased from the server manufacturer by the customer
- Whose capacity can be limited by the customer through virtualization technologies, operating system commands and BIOS settings

* For information regarding PVU and sub-capacity licensing, including the latest PVU table, visit

http://www.ibm.com/software/lotus/passportadvantage/pvu_licensing_for_customers.html

Authorized User

Authorized User is the unit of measure by which this program is licensed. An Authorized User is an individual (named or unnamed) within or outside of your enterprise. The program may be installed on one or more computers or servers and accessed by the number of users authorized by the PoE. You must have an entitlement for each Authorized User accessing the program or any program component in any manner directly or indirectly (for example, via a multiplexing program, device, or application server) through any means.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

Licensing

IBM International Program License Agreement including the License Information document and PoE govern your use of the program. PoEs are required for all authorized use.

Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

License Information form numbers

Program name	Program number	Form number
IBM Lotus Quickr Connectors	5725-A17	L-CFRR-84QQVP
IBM Lotus Quickr for WebSphere Portal	5724-Z67	L-JYUN-83UHXB

The program's License Information will be available for review on the IBM Software License Agreement Web site

<http://www.ibm.com/software/sla/sladb.nsf>

Limited warranty applies

Yes

Limited warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, consult the IBM Software Support Handbook found at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program technical support

Technical support of a program product will be available for a minimum of five years from the general availability date, as long as your Software Maintenance is in effect. This technical support allows you to obtain assistance (via telephone or

electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Maintenance also provides you with access to updates, releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

Money-back guarantee

For clarification, note that if for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that for programs acquired under the IBM International Passport Advantage Agreement, this term applies only to your first acquisition of the program.

Authorization for use on home/portable computer

The program may be stored on the primary machine and another machine, provided that the program is not in active use on both machines at the same time. You may not copy and use this program on another computer without paying additional license fees.

IBM Lotus Quickr Connectors: No
IBM Lotus Quickr for WebSphere Portal: No

International Passport Agreement

Volume orders (IVO)

No

Passport Advantage applies

Yes, and through the Passport Advantage Web site at

<http://www.ibm.com/software/passportadvantage>

This product is only available via Passport Advantage. It is not available as shrinkwrap.

Software Subscription and Support (Software Maintenance)

Yes. Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Subscription and Support (also referred to as Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support (also referred to as Software Maintenance) is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available, electronic access, to your information systems (IS) technical support personnel during the normal business

hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your IBM Software Support Handbook at

<http://www.ibm.com/support/handbook>

Software Subscription and Support (also referred to as Software Maintenance) does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage Web site at

<http://www.ibm.com/software/passportadvantage>

System i Software Maintenance applies

No

Educational allowance available

Education allowance does not apply.

Education software allowance does not apply.

Special education prices are available for qualified customers through Passport Advantage.

IBM Electronic Services

IBM has transformed its delivery of hardware and software support services to help you achieve higher system availability. Electronic Services is a Web-enabled solution that offers an exclusive, no-additional-charge enhancement to the service and support available for IBM servers. These services are designed to provide the opportunity for greater system availability with faster problem resolution and preemptive monitoring. Electronic Services comprises two separate, but complementary, elements: Electronic Services news page and Electronic Services Agent.

The Electronic Services news page is a single Internet entry point that replaces the multiple entry points traditionally used to access IBM Internet services and support. The news page enables you to gain easier access to IBM resources for assistance in resolving technical problems.

The Electronic Service Agent™ is no-additional-charge software that resides on your server. It monitors events and transmits system inventory information to IBM on a periodic, client-defined timetable. The Electronic Service Agent automatically reports hardware problems to IBM. Early knowledge about potential problems enables IBM to deliver proactive service that may result in higher system availability and performance. In addition, information collected through the Service Agent is made available to IBM service support representatives when they help answer your questions or diagnose problems. Installation and use of IBM Electronic Service Agent for problem reporting enables IBM to provide better support and service for your IBM server.

IBM Global Financing

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, both from IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www.ibm.com/financing>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financial benefit

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.
