At a glance

IBM Verse[®] On-Premises V1.0.4 improves its feature set with the following enhancements:

- Easy access to your files repository directly from a mail message when storing or choosing attachments
- Capability to accept an invite directly from the calendar pop-up window
- Extended offline mail limits, with capability to synchronize up to 30 days of mail
- Navigation bar and attachment management customization options

Overview

IBM Verse On-Premises V1.0.4 continues to transform enterprise email by combining collaborative communication with a focus on work and tasks that matter most. Intuitive user design is a key attribute of Verse, which delivers an innovative email experience to both cloud and on-premises users. Verse On-Premises V1.0.4 includes the following enhancements:

- Extended offline mail limits enhances the user experience with the option to synchronize up to 30 days of mail to increase productivity when offline.
- Capability to accept an invite directly from the calendar pop-up window enables users to act immediately while viewing their upcoming schedules. There is no need to open the full invite or take action in the inbox.
- Information about attachments (such as name or size) and bcc recipients are now accessible for evaluation or action in the "Hook on Send" extension.
- Expanded email capabilities give users the option to use a custom name picker to add recipients to the to:, cc:, and bcc: at one time.
- Integration with third-party file repositories is supported when saving attachments in email. When composing emails, users can also easily select and attach files from the repository.
- Navigation bar extensibility and additional customization support enable users to tailor the experience to meet the needs of the organization.

Verse takes a different approach to enterprise email by integrating the ways employees connect each day into a single collaboration environment for mail, meetings, calendars, file sharing, or social.

Key prerequisites

Red Hat Enterprise Linux^(R) and WindowsTM Server 64-bit systems are supported.

The following are required:

- IBM^(R) Domino^(R) V9.01, Feature Pack 9, or later
- IBM ConnectionsTM V5.5, or later

See the [Software requirements](#) section for details.

Planned availability date

August 14, 2018

Description

IBM Verse On-Premises V1.0.4 continues to bring collaborative innovation to organizations. Using advanced design thinking, Verse helps you prioritize your work, personalize your work experience, build stronger working relationships, and improve time management so that teams can spend more time on higher value work.

Powered by IBM Domino, the IBM security-rich application platform for hosting email and business applications, Verse On-Premises improves your communications and collaboration environment in the following ways:

- Presents mail that is based on what is important to you. Using advanced search capabilities, Verse On-Premises keeps you organized so that you stay current with important work items and events.
- Clears clutter and creates more clarity. Experienced through a simple, fully customizable interface, Verse On-Premises helps you focus on the projects and workloads that matter most.
- Keeps your teams connected and agile. Discover new ways to work together by using Verse On-Premises built-in extension points for integrating with your other application or solution investments.
- Eliminates the need to deploy a rich client (for example, IBM Notes^(R) or MicrosoftTM Outlook) for email, calendaring, and scheduling. IBM Client Application Access offers a lightweight alternative solution for accessing your Notes and Domino applications. This optional capability is seamlessly integrated with Verse On-Premises.
- Enables mobile capability. Take many of the capabilities of Verse On-Premises with you on your Apple iOS or Google Android mobile device. While you are mobile or traveling, you can continue to collaborate with important people, manage tasks that need action, and respond quickly to top items.

Accessibility by people with disabilities

A US Section 508 Accessibility Compliance Report containing details on accessibility compliance can be found on the [Product accessibility information](#) website.

Product category: IBM Notes

Passport Advantage

No new part numbers.

Charge metric

The charge metrics for this offering have not changed from the last release. For more information, see Software Announcement [ZP17-0644](#), dated December 19, 2017.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

Licensing

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

Software Maintenance

Licenses under the IBM Program License Agreement (IPLA) provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available. Two charges apply: a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

License Information number

The following License Information document applies to the offering in this announcement:

| License Information document title | License Information document number |
|---|--|
| IBM Verse On-Premises | L-HKAG-B2A5JN |

Select your language of choice and scroll down to the Charge Metrics section. Follow-on releases, if any, may have updated terms. See the [License Information documents](#) website for more information.

Limited warranty applies

Yes

Limited warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information about known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, see the [IBM Software Support Handbook](#).

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program technical support

Technical support of a program product version or release will be available for a minimum of three years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect.

This technical support allows you to obtain assistance (by telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support (Software Maintenance) also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, through an announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

For additional information about the IBM Software Support Lifecycle Policy, see the [IBM Software Support Lifecycle Policy](#) website.

Money-back guarantee

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Volume orders (IVO)

No

Passport Advantage applies

Yes, information is available on the [Passport Advantage and Passport Advantage Express](#) website.

Software Subscription and Support applies

Yes. Software Subscription and Support, also referred to as Software Maintenance, is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance by telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, see the [IBM Support Guide](#). Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

Unless specified otherwise in a written agreement with you, IBM does not provide support for third-party products that were not provided by IBM. Ensure that when contacting IBM for covered support, you follow problem determination and other instructions that IBM provides, including in the [IBM Support Guide](#).

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, go to the [Passport Advantage and Passport Advantage Express](#) website.

Variable charges apply

No

Educational allowance available

Education allowance does not apply. Education software allowance does not apply. Special education prices are available for qualified clients through Passport Advantage.

Statement of good security practices

IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

Prices

Business Partner information

If you are an IBM Business Partner acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBMid and password are required to access the [IBM Passport Advantage](#) website.

For all local charges, contact your IBM representative.

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner for Channel Value Rewards. Additional information is also available on the [Passport Advantage and Passport Advantage Express](#) website.
