For existing customers, support renewal part numbers remain active until April 30, 2015 to extend support contracts through April 30, 2016. Customers not contacted by their IBM or partner representative are encouraged to contact their representative. Representatives can help customers to review their current implementation and usage of IBM Connect:Enterprise for UNIX and to create a transition plan to IBM Sterling File Gateway.

Sterling File Gateway, IBM's solution for file-based B2B exchanges, provides innovative functionality in a scalable architecture with simplified onboarding, advanced automation, edge-based security, and easy extensibility.
