Overview

WebSphere® Cast Iron® Appliance support offers software entitlement for one year with remote call-in support for WebSphere DataPower® Cast Iron Appliance XH40. With this support, you can:

- Obtain remote assistance to answer Cast Iron usage, installation, and technical questions
- Report Cast Iron appliance problems to Cast Iron support specialists
- Obtain assistance to isolate and diagnose problems from Cast Iron support specialists

For information on WebSphere DataPower Cast Iron Appliance XH40, refer to Hardware Announcement [111-159](#), dated August 30, 2011.

Key prerequisites

WebSphere DataPower Cast Iron Appliance XH40

Planned availability date

September 16, 2011

Description

The WebSphere DataPower Cast Iron Appliance XH40 offering provides flexible packaging options:

- Standard Edition - Everything needed to configure, run, and manage the most common application integrations, including connectivity to cloud and standard on-premise applications, data synchronization and data migration scenarios, and access to hundreds of reusable TIPs. Standard Edition includes the ability to connect two applications, with an option to acquire additional application endpoints.
- Enterprise Edition - Includes everything in the Standard Edition, plus advanced capabilities, including the ability to connect enterprise on-premise applications, perform UI mashups, use data quality features, develop reusable templates, and manage and monitor the solution remotely through management APIs.

- Application Endpoints - Adds the ability to integrate additional applications, while acquiring only what is needed. Choose from any of hundreds of cloud and on-premise applications. Available with both the Standard and Enterprise Editions.
- Development Editions - Provide a complete, shared development environment for non-production use, and with no limit on the number of applications integrated.
- Unlimited Application Endpoints - Adds the ability (per appliance) to integrate any number of applications across hundreds of cloud and on-premise applications. Available with both the Standard and Enterprise Editions.

Each of these options is available under a one-time-charge (OTC) license or a one-year, two-year, or three-year Fix Term License (FTL).

Reference information

For information on WebSphere Cast Iron Live and WebSphere Cast Iron Express®, refer to Software Announcement [211-291](#), dated August 16, 2011.

For information on WebSphere DataPower Cast Iron Appliance XH40, refer to Hardware Announcement [111-159](#), dated August 30, 2011.

For information on WebSphere Cast Iron Hypervisor Edition, refer to Software Announcement [211-327](#), dated August 23, 2011.

Software Services

IBM Software Services has the breadth, depth, and reach to manage your services needs. You can leverage the deep technical skills of our lab-based, software services team and the business consulting, project management, and infrastructure expertise of our IBM Global Services team. Also, we extend our IBM Software Services reach through IBM Business Partners to provide an extensive portfolio of capabilities. Together, we provide the global reach, intellectual capital, industry insight, and technology leadership to support a wide range of critical business needs.

Application Instance

Application Instance is a unit of measure by which the program can be licensed. An entitlement is required for each instance of an application connected to or managed by the program. An application in a test, development, staging, or production environment is each considered to be a separate instance of the application and each must have an entitlement. As well, multiple Application Instances in a single environment are each considered to be separate instances of the application and each must have an entitlement.

Appliance Install

Appliance Install is a unit of measure by which the program can be licensed. An Appliance Install is an installed copy of the program that is included on a single unit of supporting hardware. Licensee must obtain an entitlement for each Appliance Install of the program.

This software license includes Software Maintenance, previously referred to as *Software Subscription and Technical Support*.

Extending coverage for a total of three years from the date of acquisition may be elected. Order the program number, feature number, and quantity to extend coverage for your software licenses. If maintenance has expired, specify the after license feature number.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage® Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

Licensing

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

Agreement for Acquisition of Software Maintenance

The IBM Agreement for Acquisition of Software Maintenance (Z125-6011) agreement applies for Subscription and Support (also referred to as Software Maintenance) and does not require customer signatures.

This program is licensed under the IBM International Program License Agreement (IPLA) and the associated Agreement for Acquisition of Software Maintenance, which provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available. These programs have a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

License Information form number

L-AFOS-8JNL6C - WebSphere Cast Iron Cloud integration V6.1

The program License Information document will be available for review on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

Limited warranty applies

Not applicable

Money-back guarantee

Not applicable

Volume orders (IVO)

No

Passport Advantage applies

No

Usage restriction

Yes. If Licensee acquires a Standard Runtime entitlement, then notwithstanding any provision in the agreement, licensee is not authorized to use any of the following components or functions of the program:

1. Enterprise Application Endpoints: Enterprise Endpoints include integration with the following applications: SAP Software, Oracle E-Business Suite, Siebel Business Applications, PeopleSoft Enterprise, JD Edwards EnterpriseOne, and WebSphere MQ.
2. Data Quality Features: The specific data quality features or activities within the program (for example, filter and profile, look up, sort, and merge)
3. Template Development Kit: A set of features within the program used to develop template integration processes (TIPs)
4. Management APIs: The set of application programming interfaces (APIs) in the program that allow users to programmatically perform management, monitoring, user provisioning, and deployment activities.
5. High Availability: The set of features that enables failover from one appliance to a standby appliance. High Availability may only be used with WebSphere DataPower Cast Iron Appliance XH40 Enterprise Edition.

Software Subscription and Support (Software Maintenance) applies

Yes. All distributed software licenses include Software Subscription and Support (also referred to as Software Maintenance) for a period of 12 months from the date of acquisition, providing a streamlined way to acquire IBM software and assure technical support coverage for all licenses. Extending coverage for a total of three years from date of acquisition may be elected.

While your Software Subscription and Support (Software Maintenance) is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, every day of the year. For additional details, consult your *IBM Software Support Handbook* at

<http://www.ibm.com/support/handbook>

Software Subscription and Support (Software Maintenance) does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under this agreement.
