## Overview

IBM® Cognos® Business Intelligence V10.2.2 transforms data into meaningful and useful insights. Interactive reports, dashboards, and scorecards provide historical, current, and predictive views of your business and create data-driven outcomes to help make confident decisions and improve operational efficiencies. IBM Cognos Business Intelligence helps your organization to:

- Leverage data: Analyze information in volume, combination, and complexity.
- Make confident decisions: Predictive analytics provides a view into the future for visibility of your business.
- Deliver information: IBM Cognos Business Intelligence provides a platform for delivering predictive views of performance.
- Outperform expectations: Transform your business from a reactive operation to a proactive organization.

---

## Key prerequisites

Refer to the [Software requirements](#) section.

---

## Planned availability date

- November 21, 2014: Electronic software delivery
- December 5, 2014: Media packs

Refer to the [Availability of national languages](#) section for national language availability.

---

## Description

IBM Cognos Business Intelligence V10.2.2 supports business users, report authors, and administrators alike by simplifying end-user functionality and speeding time to value with simplified deployment.

Simplified end-user functionality for greater user self-service:

- End-to-end analysis with personal data import for business users

- Support for customization of Rapidly Adaptive Visualization Engine visualizations in IBM Cognos Report Studio and IBM Cognos Workspace Advanced
- Create reusable style templates for a consistent corporate identity including styles, fonts, and colors
- Interactive maps in IBM Cognos Workspace
- Accelerate Cognos Active Report creation with live preview

Simplified deployment for faster time to value:

- Use quick setup to easily install and configure all Cognos Business Intelligence components for testing and prototyping.
- Securely manage individual users and administration in multitenant deployments.
- Reduce Cognos Dynamic Cube develop time by migrating existing IBM Cognos Framework Manager models.
- IBM Business Intelligence Pattern now included with the Analytics Architect and Analytics Administrator roles.

General data access and administration:

- Filter join optimization: Optimization of joins by applying filters in Cognos Framework Manager and Cognos Report Studio
  - Improve performance by filtering one side of a join using the values retrieved by the other side
  - Minimize the amount of data retrieved by the IBM Cognos Business Intelligence server
- Summary query subjects: Ability to control the grouping and aggregation when creating a model
  - Control grouping and aggregation in ways previously only possible in reports
  - Define a join between aggregated values and detail values
  - Specify the granularity of filters and calculations available to ad hoc users
- Bridge query subjects: Creation of a bridge table to link star schemas or subject areas in a model
  - Identify bridge tables in your database
  - Avoid double counting in stitched query aggregations
  - Filter entire rows of a multiple fact datastream when filtering the bridge
- Parameter map freshness: Ability to enable parameter caching
  - Control the frequency for which parameter map values are refreshed
  - See data updated seconds before a report is run
  - Balance the performance benefits of caching with data latency requirements
- NIST SP800-131a
  - Cognos Business Intelligence now leverages IBM Global Security Kit (GBKit) for security.
- Encrypted (SSL) connection to the content store database
  - Control security features such as enabling SSL and Data Encryption, during the database definition process
- Support for SSL and Transport Layer Security (TLS) certificate pinning
  - You can now protect the Android and Apple iOS apps from the man-in-the-middle attacks by restricting the apps to connect only to those IBM Cognos Business Intelligence servers that use trusted certificates.

Conformance updates:

- Content Store
  - IBM DB2® 11 for z/OS®

- Microsoft™ SQL Server 2012 R2
- Microsoft SQL Server 2014
- Portal servers
  - IBM WebSphere® Portal V8.5
  - Liferay Portal
- Security libraries
  - GSKit
- Web servers
  - Microsoft Internet Information Services 8.5
- Data sources
  - Cloudera Impala 1.3
  - IBM Netezza® V7.1, V7.2
  - IBM DB2 for i 7.2
  - IBM Cognos TM1® V10.2.2
  - IBM InfoSphere® BigInsights™ V2.1, V3.0
  - Apache Hive 0.11, 0.12
  - Microsoft SQL Server 2012 R2, 2014
  - Microsoft SQL Server Analysis Services 2012 R2, 2014
  - MySQL 5.7
  - PostgreSQL 9.3, 9.4
  - Teradata 15
- Drivers
  - JT400 JDBC driver (IBM DB2 for i)
- Mobile
  - Apple iOS 7
  - Android 4.4
  - Phone support for iOS and Android

---

### **Accessibility by people with disabilities**

A US Section 508 Voluntary Product Accessibility Template (VPAT) containing details on accessibility compliance can be requested at

[http://www.ibm.com/able/product\\_accessibility/index.html](http://www.ibm.com/able/product_accessibility/index.html)

---

## **Statement of direction**

### **Deprecated features in IBM Cognos Mashup Service**

Some of the features in IBM Cognos Mashup Service have been deprecated and will be removed in a future release of this product.

The following features have been deprecated:

- Support for Layout Data (LDX) schema version 1: Upgrade to the latest Layout Data (LDX) schema version.
- Support for the Simple output format: Migrate to another output format, such as the Layout Data (LDX) format or one of the Dataset formats, such as DataSet, DataSetAtom, or DataSetJSON.
- Support for IBM Cognos Series 7 PowerPlay® reports: Migrate to a current version of Cognos PowerPlay reports.

- Style Management Command Line Utility: Utilize Theme Designer
- Original behavior of the Cognos Connection copy functionality: The default copy mechanism will be applied to all users.
- Content Manager Advanced Setting to Save to File System: Duplication of functionality already available.
- Importing non-Cognos portlets.
- Cognos Series 7 Upfront Portal integration with Cognos Connection: With the end of life of Cognos Series 7, we will no longer be supporting this integration point with Cognos Connection.
- Publishing Cognos Series 7 PowerPlay reports to Cognos Connection: Migrate to PowerPlay 10.
- Cognos Mobile Web Application: Migrate to the Native Application on iOS or Android.

### **Deprecated support for Cognos Mobile native client on Blackberry Server**

Beginning with IBM Cognos Business Intelligence V10.2.2, the IBM Cognos Mobile native client on BlackBerry is no longer supported.

### **Changed data source for the Sample Report Usage report in IBM Cognos Business Intelligence**

The data source for the Sample Report usage report has changed. The url\_xml data source is no longer supported.

The Report Usage report runs against the relational Audit data source, the same data source as all other audit reports. For more information, refer to the IBM Cognos Administration and Security Guide.

### **Other features that are deprecated**

Support for the following features and products will not be continued after the current release:

- Cognos Query Studio
- Cognos Analysis Studio
- OLAP data sources with Compatible Query Mode (CQM), with the exception of Power® Cubes
- All 32-bit platforms
- Cognos Real-Time Monitoring
- Andale fonts

### **Conformance deprecation announcement**

IBM Cognos Business Intelligence V10.2.2 will be the final version to support the following.

Operating systems

- Microsoft Windows™ Vista

Content Stores

- IBM DB2 9.1
- IBM DB2 9.5
- IBM DB2 9.7
- IBM DB2 for z/OS 9.1
- IBM Informix® V11.5
- IBM Informix V11.7
- Microsoft SQL Server 2005

- ApacheDerby
- Sybase (all versions)

#### Data Sources

- IBM DB2 9.1
- IBM DB2 9.5
- IBM DB2 9.7
- IBM DB2 for z/OS 8.1
- IBM DB2 for z/OS 9.1

## Technical information

---

### Specified operating environment

---

#### **Hardware requirements**

For complete details about the minimum hardware requirements to install and run IBM Cognos software, refer to the IBM Software Product Compatibility Reports page at

<http://www.ibm.com/support/docview.wss?uid=swg27042164>

#### **Software requirements**

For complete details concerning the minimum software requirements to install and run IBM Cognos software, refer to the IBM Software Product Compatibility Reports page at

<http://www.ibm.com/support/docview.wss?uid=swg27042164>

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a readme file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

### Planning information

---

#### **Packaging**

This program, when downloaded from a website, contains the applicable IBM license agreement and License Information, if appropriate, and will be presented for acceptance at the time of installation of the program. For future reference, the license and License Information will be stored in a directory such as LICENSE.TXT.

## Cross-platform products

Cross-platform products for use on System z

Order the part numbers that follow when the product is used for either the development of code that will be deployed on System z servers or when the product will be communicating or transferring data between a distributed server and a System z server. Otherwise order from the other set of part numbers in this announcement. This set of part numbers provides the identical supply and authorization as the other set in this announcement.

Cross-platform product for use on System z IFL engines or zEnterprise BladeCenter Extension

Order the part numbers that follow when the product is intended to run on the zEnterprise BladeCenter Extension or Linux operating system on System z IFL engines. If the product is not intended to run in these environments, order from the other set of part numbers in this announcement. This set of part numbers provides the identical supply and authorization as the other set in this announcement.

Annual SW Subscription & Support Renewal	E0K33LL

## Charge metric

---

Program name	PID number	Charge unit description
IBM Cognos Business Intelligence	5724-W12	Per Processor Value Unit Per Authorized User

## Authorized User

Authorized User is a unit of measure by which the program can be licensed. An Authorized User is a unique person who is given access to the program. The program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User accessing the program in any manner directly or indirectly (for example, via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

Note: Some programs may be licensed where devices are considered users. In that case, the following applies. Any computing device that requests the execution of or receives for execution a set of commands, procedures, or applications from the program or that is otherwise managed by the program is considered a separate user of the program and requires an entitlement as if that device were a person.

## Processor Value Unit (PVU)

PVU is a unit of measure by which the program can be licensed. The number of PVU entitlements required is based on the processor technology (defined within the PVU table by processor value, brand, type, and model number at the website below) and the number of processors made available to the program. IBM continues to define a processor, for the purpose of PVU-based licensing, to be each processor core on a chip. A dual-core processor chip, for example, has two processor cores. The PVU table can be found at

[http://www.ibm.com/software/lotus/passportadvantage/pvu\\_licensing\\_for\\_customers.html](http://www.ibm.com/software/lotus/passportadvantage/pvu_licensing_for_customers.html)

Licensee can deploy the program using either full capacity licensing or virtualization capacity (sub-capacity) licensing according to the Passport Advantage Sub-Capacity Licensing Terms (refer to the web page below). If using full capacity licensing, licensee must obtain PVU entitlements sufficient to cover all activated processor cores\* in the physical hardware environment made available to or managed by the program, except for those servers from which the program has been permanently removed. If using virtualization capacity licensing, licensee must obtain entitlements sufficient to cover all activated processor cores made available to or managed by the program, as defined according to the Virtualization Capacity License Counting Rules at

[http://www.ibm.com/software/lotus/passportadvantage/Counting\\_Software\\_licenses\\_using\\_specific\\_virtualization\\_technologies.html](http://www.ibm.com/software/lotus/passportadvantage/Counting_Software_licenses_using_specific_virtualization_technologies.html)

\* An activated processor core is a processor core that is available for use in a physical or virtual server, regardless of whether the capacity of the processor

core can be or is limited through virtualization technologies, operating system commands, BIOS settings, or similar restrictions.

Notes:

- Some programs may require licenses for the program **and** what is being managed. In that case, the following applies. In addition to the entitlements required for the program directly, licensee must obtain PVU entitlements for this program sufficient to cover the processor cores managed by the program.
- Some programs may be licensed on a managed basis only. In that case, the following applies. Instead of the entitlements required for the program directly, licensee must obtain PVU entitlements for this program sufficient to cover the processor cores managed by the program.
- A few programs on an exception basis may be licensed on a referenced basis. In that case, the following applies. Rather than obtaining entitlements for the activated processor cores available to the program, licensee must obtain PVU entitlements for this program sufficient to cover the environment made available to the referenced program as if the program itself were executing everywhere the referenced program was executing, independent of the basis on which the referenced program is licensed.

---

## Terms and conditions

---

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

This product is only available via Passport Advantage.

### ***Licensing***

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

These programs are licensed under the IBM Program License Agreement (IPLA) and the associated Agreement for Acquisition of Software Maintenance, which provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available. These programs have a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

### ***License Information number***

- L-JKAN-9MFT3S - IBM Cognos Business Intelligence
- L-JBRN-9MBHU7 - IBM Cognos Real Time Monitoring
- L-JBRN-9MBHVW - IBM Business Intelligence Software Development Kit

The program's License Information will be available for review on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

### **Limited warranty applies**

Yes

### **Limited warranty**

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, consult the IBM Software Support Handbook found at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

### **Program technical support**

Technical support of a program product version or release will be available for a minimum of five years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support (Software Maintenance) also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

### **Money-back guarantee**

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

### **Other terms**

#### **Volume orders (IVO)**

No

### **IBM International Passport Advantage Agreement**

#### **Passport Advantage applies**

Yes, and through the Passport Advantage website at

<http://www.ibm.com/software/passportadvantage>

**Usage restriction**

Yes

**Software Subscription and Support applies**

Yes. Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your IBM Software Support Handbook at

<http://www.ibm.com/support/handbook>

Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage website at

<http://www.ibm.com/software/passportadvantage>

**Other support**

Passport Advantage

**System i® Software Maintenance applies**

No

**Variable charges apply**

No

**Educational allowance available**

Not applicable.

---

**Statement of good security practices**

---

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely

effective in preventing improper access. IBM systems and products are designed to be part of a comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective. IBM does not warrant that systems and products are immune from the malicious or illegal conduct of any party.

### **Business Partner information**

If you are an IBM Business Partner -- Distributor for Workstation Software acquiring products from IBM, you may link to Web Ordering System (WOS) or Partner Sales Support Center (PSSC).

An IBM ID and password are required.

WOS

[https://www-607.ibm.com/software/partners/jp/order/wos\\_i/top/boot.wss](https://www-607.ibm.com/software/partners/jp/order/wos_i/top/boot.wss)

PSSC

[https://www-304.ibm.com/partnerworld/mem/pat/pat\\_sol\\_ssc\\_jp.html](https://www-304.ibm.com/partnerworld/mem/pat/pat_sol_ssc_jp.html)

For Passport Advantage information and charges, contact your IBM Representative or authorized IBM Business Partner. Additional information is available at

<http://www.ibm.com/software/passportadvantage/>

For all local charges, contact your IBM representative.

### **Passport Advantage**

For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner for Software Value Plus. Additional information is also available at

<http://www.ibm.com/software/passportadvantage>

### **IBM Global Financing**

---

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www.ibm.com/financing>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified clients.
