## Overview

WebSphere® Cast Iron® Cloud integration delivers leading software-as-a-service (SaaS) and cloud application integration. WebSphere Cast Iron Cloud integration has enabled many organizations to connect their hybrid world of cloud and on-premise applications within days and achieve lower costs and higher return on investment in cloud and SaaS models.

For more information about WebSphere Cast Iron Cloud integration SaaS offerings, refer to Software Announcement [211-291](#), dated August 16, 2011.

## Key prerequisites

For details, refer to Software Announcement [211-291](#), dated August 16, 2011.

## Planned availability date

## Description

WebSphere Cast Iron Cloud integration offerings are available in multiple form factors, including SaaS, a physical appliance, or a virtual appliance, providing flexible deployment options for your integration solution. The SaaS offerings are based on a multi-tenant cloud infrastructure that enables you to configure, run, and manage integrations in the cloud without any infrastructure footprint on site, and are available in the following editions to address your specific integration challenges:

- **WebSphere Cast Iron Express®** -- This simple, business-user-friendly, self-service cloud offering for Salesforce.com administrators allows organizations to quickly and effectively connect their Salesforce.com application to other applications.
- **WebSphere Cast Iron Live Standard Edition** -- Enables the most common cloud application integrations, including connectivity to cloud and standard on-premise applications, data synchronization and data migration scenarios, and access to hundreds of reusable integration templates.

- **WebSphere Cast Iron Live Enterprise Edition** -- Includes everything in the Standard Edition, plus advanced capabilities, including the ability to connect enterprise on-premise applications, use data quality features, develop reusable templates, and manage and monitor the solution remotely through management APIs.

WebSphere Cast Iron Live and WebSphere Cast Iron Express software-as-a-service offerings now provide new subscription options:

- Monthly subscription pricing
- Flexible subscription period from 1 to 60 months
- Multiple billing options for subscription charges, including monthly, quarterly, annually, and prepaid

**IBM Global Financing**

---

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www.ibm.com/financing>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.

For more financing information, visit

<http://www.ibm.com/financing>
