#### Software requirements

Rocket Device Adapter Pack for IBM Spectrum Protect Snapshot, formerly known as Rocket Device Adapter Pack for IBM FlashCopy Manager, requirements can be found at

<http://www.rocketsoftware.com/products/device-adapter-Pack-for-IBM-Spectrum-Protect-Sna pshot>

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a readme file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language. Such information is provided subject to the following Statement of Good Security Practices: IT system security involves protecting systems and information through prevention, detection and, response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, misappropriated, or misused, or can result in damage to or misuse of your systems, including for use in attacks on others. No IT system or product should be considered completely secure and no single product, service, or security measure can be completely effective in preventing improper use or access. IBM systems,

products, and services are designed to be part of a lawful, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

**Important:** IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

## Planning information

---

### **Packaging**

The program package is distributed by electronic software download from the Rocket Software, Inc. website to entitled customers from

<http://www.rocketsoftware.com/products/device-adapter-Pack-for-IBM-Spectrum-Protect-Sn-APSHOT>

- The Rocket Software Inc. product
- Research for Enterprise Systems Srl License Agreement
- Proof of Entitlement

This program, when downloaded from a website, contains the applicable IBM license agreement and License Information, if appropriate, and will be presented for acceptance at the time of installation of the program. For future reference, the license and License Information will be stored in a directory such as LICENSE.TXT.

Product Group: IBM Storage Management

Product: Rocket Device Adapter Pack for IBM Spectrum Protect Snapshot (5725-P59)

Product Category: Tivoli<sup>(R)</sup> Storage Manager

### **Passport Advantage**

#### **Rocket Device Adapters for IBM Spectrum Protect Snapshot (5725-P59)**

<b>Program name/Description</b>	<b>Part number</b>
Rocket Device Adapters for IBM Spectrum Protect Snapshot + 24 months S&S per Terabyte 3rd party offering	D1K5LLL
Rocket Device Adapters for IBM Spectrum Protect Snapshot + 36 months S&S per Terabyte 3rd party offering	D1K5MLL

## Charge metric

Program name	Part number or PID number	Charge metric
Rocket Device Adapter Pack for IBM Spectrum Protect Snapshot	5725-P59	Per terabyte

## Licensing metric definitions

### Terabyte

Terabyte is a unit of measure by which the Program can be licensed. A terabyte is 2 to the 40th power bytes. Licensee must obtain an entitlement for each terabyte of storage available to the Program.

### Pricing Example

A customer wishes to acquire Rocket Device Adapter Pack for IBM Spectrum Protect Snapshot for their environment. The customer's environment requires 40 terabytes of data to be acquired. The customer will need to purchase 40 TB of Rocket Device Adapter Pack for IBM Spectrum Protect Snapshot.

---

## Terms and conditions

The terms and conditions for Rocket Device Adapter Pack for IBM Spectrum Protect Snapshot remain unchanged. For complete information, refer to Software Announcement [213-567](#), dated December 10, 2013.

---

## Statement of good security practices

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a lawful, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

**Important:** IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.
