Overview

The following products are enhanced:

- IBM^(R) Datacap
 - Helps you streamline the capture, recognition, and classification of business documents and extract important information.
 - Supports multiple-channel capture by processing paper documents on scanners, mobile devices, multi-function peripherals and fax.
 - Uses natural language processing, text analytics, and machine learning technologies to automatically identify, classify, and extract content from unstructured or variable documents.
 - Can reduce labor and paper costs to deliver meaningful information and support faster decision making.
- IBM Content Foundation
 - Delivers full-content, lifecycle and document management capabilities.
 - Delivers a fast, cost-effective solution for improved control of existing and new types of content.
 - Provides superior scalability, security, stability, mobility and cross-platform content capabilities.
 - Is easy to use, supports rapid deployment, and is suitable for small to large companies.
 - Is available for on-premise, in the cloud, or hybrid deployment.
 - Protects sensitive data with role-based redaction.
 - Enables team collaboration.
- IBM FileNet^(R) Content Manager
 - Lets you manage your organization's content and across the enterprise.
 - The scalable software offers:
 - Lifecycle management
 - Transactional content processing
 - Document management
 - Content consolidation

- Content-based application development
- Faceted search of full text indexed search collections
- Compliance and governance
- Helps you gain secure, mobile, anytime access across your content stores and supports your business processes.
- Daeja^(R) ViewONE Virtual
 - Provides a consistent web-based viewing experience for a wide variety of content formats that enables users to open, review, mark up and redact content without requiring the use of expensive native applications.
 - Saves time and money while improving content quality by providing a fast and consistent way to look at different content types such as TIFF, PDF and MicrosoftTM Office-based files.
 - Enables safe and easy content annotation without altering the original source file. Offers a wide variety of configurations.
 - Uses role-based redaction to protect sensitive data.
- IBM Content Navigator
 - Enhances your business processes.
 - Improves productivity and increases customer engagement by transforming how content is accessed, delivered, and presented.
 - Uses a powerful, easy-to-use interface that delivers trusted data quickly, no matter where the content is located or what type of data source.
 - Enables secure, easy-to-integrate, custom applications development and delivers a consistent experience on any device.
 - Includes role-based redaction to protect sensitive data while Teamspaces enable focused collaboration with powerful team and project site content capabilities.

Key prerequisites

For details on each product, see the [Hardware requirements](#) and the [Software requirements](#) sections in the [Technical information](#) section.

Planned availability date

June 28, 2018

Description

The following offerings are updated to include the following enhancements:

- Datacap V9.1.4
 - Enhances the Content Navigator user interface with better scanning and usability improvements.
 - Smart parameter support was expanded to include additional action libraries.
 - Optical Character Recognition_SR (OCR_SR) now supports hand print recognition.
- Datacap Insight^(R) Edition V9.1.4
 - Enables the use of the Datacap MetaBot that is provided with IBM Robotic Process Automation (IBM RPA) with Automation Anywhere client to extract content from electronic or image documents and return structured data.
 - Improves content analysis and extraction.
- FileNet Content Manager V5.5.1 and Content Foundation V5.5.1:

- Includes support for Docker Containers, including deployment in IBM Cloud™ Private with the ability to deploy multiple container services from a single tool.
- Simplifies deployment that removes requirement to redeploy Enterprise Archive (EAR) files.
- Provides write once, read many (WORM) support for fixed events in IBM Cloud Object Storage System™.
- Provides support for upgrading from Version 5.2.x.
- Daeja ViewONE Virtual V5.0.4
 - Provides continuous scrolling capability.
 - Provides sticky note summary when printing.
 - Enables saving to local desktop.
 - Shows total page count in toolbar page information.
 - Adds new HTML parameter to set semi-transparent annotation borders.
 - Provides new APIs in Document Builder to move a page, get the current state, and get more information about the action that causes a document change.
- Content Navigator V3.0.4
 - Provides connections to repositories that support Content Management Interoperability Standard (CMIS) 1.1.
 - Provides single-sign on (SSO) for Edit Services on Mac.
 - Uploads to FileNet using Aspera^(R) to improve upload times for large files, such as videos.
 - Uses security roles to update document and folder security in FileNet.
 - Supports Content Manager multi-file parts.
 - Modifies default workflow when using entry template to add documents to IBM Content Manager.
 - Allows easy addition of all class properties to search results.
 - Supports for line-data download (UTF-8) for Content Manager OnDemand.
 - Includes improvements for SSO for Content Manager OnDemand.

Accessibility by people with disabilities

A US Section 508 Accessibility Compliance Report containing details on accessibility compliance can be found on the [Product accessibility information](#) website.

Technical information

Specified operating environment

Hardware requirements

For current hardware requirements, see the [IBM Support](#) website and specify the product in the search box and press Submit.

Software requirements

For current software requirements, see the [IBM Support](#) website and specify the product in the search box and press Submit.

IBM Electronic Support

The IBM Support Portal is your gateway to technical support. This includes IBM Electronic Support tools and resources, for software and hardware, to help save time and simplify support. The Electronic Support tools can help you find answers to questions, download fixes, troubleshoot, automate data collection, submit and track problems through the Service Request online tool, and build skills. All these tools are made available through your IBM support agreement. Read about the Electronic Support portfolio of tools on the [IBM Electronic Support](#) website.

You can also access the [IBM Support Portal](#) page and the online [Service requests and PMRs](#) tool for more support.

Planning information

Packaging

These offerings are delivered through the internet as electronic downloads. There is no physical media.

Direct client support

Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Subscription and Support (Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and technical support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (Software Maintenance) can be extended by the purchase of a renewal option, if available.

Ordering information

For ordering information, consult your IBM representative or authorized IBM Business Partner, or go to the [Passport Advantage](#) website.

This product is only available through Passport Advantage. It is not available as shrinkwrap.

These products may only be sold directly by IBM or by authorized IBM Business Partners for Channel Value Rewards.

More information can be found on the [IBM Channel Value Rewards](#) website.

To locate IBM Business Partners for Channel Value Rewards in your geography for a specific Channel Value Rewards portfolio, go to the [Find a Business Partner](#) page.

For charge metric descriptions, see the License Information documents in the [Terms and conditions](#) section.

Processor Value Unit (PVU) sub-capacity licensing

This software product is eligible for sub-capacity licensing. Clients must obtain Proofs of Entitlement (PoEs) for the maximum processor core capacity available to an eligible sub-capacity product when deployed in an eligible virtualization environment. This is also referred to as sub-capacity or virtualization capacity licensing.

Clients must use the IBM License Metric Tool (ILMT) unless they meet the exceptions described on the [ILMT](#) website.

For information regarding PVU sub-capacity licensing, see the [Passport Advantage Virtualization Capacity \(Sub-capacity\) Licensing](#) website.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

This product is only available through Passport Advantage.

Licensing

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

Software Maintenance

Licenses under the IBM Program License Agreement (IPLA) provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available. Two charges apply: a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as

access to updates, releases, and versions of the program as long as support is in effect.

Limited warranty applies

Yes

Limited warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, see the [IBM Software Support Handbook](#).

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program technical support

Technical support of a program product version or release will be available for a minimum of two years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect.

This technical support allows you to obtain assistance (by telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support (Software Maintenance) also provides you with access to versions, releases, and updates (CD releases, Long Term Support Releases or fixes) of the program. You will be notified, through an announcement letter, of discontinuance of support with six months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

For additional information on the IBM Software Support Lifecycle Policy, see the [IBM Software Support Lifecycle Policy](#) website.

Money-back guarantee

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Volume orders (IVO)

No

Passport Advantage applies

Yes, information is available on the [Passport Advantage and Passport Advantage Express](#) website.

Software Subscription and Support applies

Yes. Software Subscription and Support, also referred to as Software Maintenance, is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance by telephone and, if available,

electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, see the [IBM Software Support Handbook](#). Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

Unless specified otherwise in a written agreement with you, IBM does not provide support for third-party products that were not provided by IBM. Ensure that when contacting IBM for covered support, you follow problem determination and other instructions that IBM provides, including in the [IBM Software Support Handbook](#).

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, go to the [Passport Advantage and Passport Advantage Express](#) website.

Variable charges apply

No

Educational allowance available

Not applicable.

Statement of good security practices

IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

Prices

Business Partner information

If you are an IBM Business Partner acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBMid and password are required to access the [IBM PartnerWorld^{\(R\)}](#) website.

For all local charges, contact your IBM representative.

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner for Channel Value Rewards. Additional information is also available on the [Passport Advantage and Passport Advantage Express](#) website.

IBM Global Financing

IBM Global Financing offers competitive financing to credit-qualified clients to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all client segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or go to the [IBM Global Financing](#) website for more information.

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government clients. Rates are based on a client's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, can help accelerate implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified clients.
