## At a glance

### IBM® Rational® Insight V1.1.1

- Provides support for Collaboration Lifecycle Management V4 and addresses customer requirements on installation, configuration, and documentation.
- Includes a new wizard to walk users through the configuration process and many of the configuration steps have been automated.
- Includes platform support that was extended to include AIX® 6.1 and 7.1, SUSE Linux™ Enterprise Server V10 and V11, Red Hat Enterprise Linux V6, DB2® on System z® , and System i® .
- Delivers 64-bit support and report performance improvements.
- Delivers support for high availability clusters and streamlined installation for evaluation and demo of product features with preset configuration.

## Overview

Rational Insight provides a comprehensive performance management solution tailored for Software and Systems Delivery (SSD). It includes Cognos® 10 BI Reporting in-the-box and pre-built, customizable data model, extract, transform, and load, reports, and dashboards. Rational Insight can be used to measure current process efficiency and process improvement effectiveness through out-of-the-box reports and dashboards based on many Rational Method Composer best practices and out-of-the-box reports and dashboards grouped by capability maturity model integration process area and level.

Rational Insight analytics help users quickly locate root causes, prescribe corrections, and predict outcomes using out-of-the-box, scorecard framework for weighted KPI indicators and alerts. It also integrates with additional Cognos analytic applications (such as analysis studio, SPSS® , and so on).

Rational Insight is intended for CIOs, delivery executives, and managers of software and systems delivery firms who require visibility into artifacts generated across complex application lifecycle management environments including a mixture of Rational and third-party application lifecycle management tools for identifying and measuring software development and delivery performance and improvements.

Rational Insight is the only product that provides a performance management solution with out-of-the-box integrations with IBM and third-party products for transparency and analytics across the entire SSD domain.

---

## Key prerequisites

---

For details, refer to the [Hardware requirements](#) and the [Software requirements](#) sections.

---

## Planned availability date

---

September 4, 2012

- Electronic availability
- Media availability

Refer to the complete letter for national language availability.

---

## Availability of national languages

---

Product description	Language	General availability date
Rational Insight Standard Edition V1.1.1	Multilingual (Portuguese, Multinational, French, Korean, Chinese-Simplified, Spanish, German, Japanese, Chinese-Traditional, English, Italian)	September 4, 2012

---

## Program number

---

Program number	VRM	Program name
5724-Y05	1.1.1	IBM Rational Insight

---

## Offering Information

---

Product information is available via the Offering Information website

<http://www.ibm.com/common/ssi>

Also, visit the Passport Advantage® website

<http://www.ibm.com/software/passportadvantage>

---

## Publications

---

No publications are shipped with this product.

The IBM Publications Center

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided. Payment options for orders are via credit card (in the US) or customer number for 20 countries. A large number of publications are available online in various file formats, and they can all be downloaded by all countries.

### Specified operating environment

---

#### **Hardware requirements**

Cognos BI Modeling, Cognos BI Data Manager are not available on AIX or Linux .

#### **Disk space**

- Single system installation -- Minimum: 15 GB; Optimum: 30 GB
- Data Warehouse server -- Minimum: 13 GB; Optimum: 80 GB
- Report server -- Minimum: 3 GB; Optimum: 10 GB
- Developer system -- Minimum: 3 GB; Optimum: 15 GB

**Display** -- Display monitor with at least 1024 x 768 color resolution using 256 colors.

#### **Memory**

The Data Services system configured for a specific product adapter should meet the system requirements for that product.

- If you are installing one adapter, add 1 GB memory in addition to the requirement of the product for the adapter to be installed.
- If you are installing more than one adapter on the same system, use the largest memory requirement of the product for the adapter to be installed, and add 512 MB memory for each additional adapter.

**Memory** -- Minimum: 4 GB; Optimum: 6 GB or more. Users with Windows™ Server 2003 advised to set the /3G switch. For the steps, visit

[http://technet.microsoft.com/en-us/library/bb124810\(EXCHG.65\).aspx](http://technet.microsoft.com/en-us/library/bb124810(EXCHG.65).aspx)

With the /3G switch, a 32-bit OS like Windows Server 2003 will allocate 3 GB of its virtual address space to applications.

Processor -- Minimum: Pentium™ : 4 2Ghz; Optimum: Dual Core 2+Ghz

#### **Software requirements**

##### **Application servers**

- WebSphere® Application Server - Express® V7.0 and future fix packs
- WebSphere Application Server - Base V7.0 and future fix packs
- WebSphere Application Server - Express V8.0 and future fix packs
- WebSphere Application Server - Base V8.0 and future fix packs
- WebSphere Application Server Network Deployment V6.1.0.21 and future fix packs
- WebSphere Application Server - Express V6.1.0.21 and future fix packs
- WebSphere Application Server - BaseV 6.1.0.21 and future fix packs
- WebSphere Application Server Network Deployment V6.1.0.29 and future fix packs
- WebSphere Application Server - Express V6.1.0.29 and future fix packs
- WebSphere Application Server - Base V6.1.0.29 and future fix packs

## Databases

- DB2 Enterprise Server Edition V9.5 and future fix packs
- DB2 Workgroup Server Edition V9.5 and future fix packs
- Oracle Database 10g Enterprise Edition Release 2 10.2.0.2 and future fix packs
- Oracle Database 10g Standard Edition Release 2 10.2.0.2 and future fix packs
- Oracle Database 11g Enterprise Edition Release 1 and future fix packs
- Oracle Database 11g Standard Edition Release 1 and future fix packs
- DB2 Workgroup Server Edition V9.7 and future fix packs
- DB2 Enterprise Server Edition V9.7 and future fix packs
- DB2 Express Edition V9.5 and future fix packs
- DB2 Express Edition V9.7 and future fix packs
- Oracle Database 11g Enterprise Edition Release 1 11.1.0.7 and future fix packs
- Oracle Database 11g Standard Edition Release 1 11.1.0.7 and future fix packs
- Oracle Database 11g Enterprise Edition Release 2 and future fix packs
- Oracle Database 11g Standard Edition Release 2 and future fix packs
- Microsoft™ SQL Server Enterprise Edition 2005 SP4 and future fix packs
- Microsoft SQL Server Enterprise Edition 2008 and future fix packs
- DB2 9 for z/OS® V9.1 and future fix packs
- DB2 for i V6.1 and future fix packs
- DB2 for i V7.1 and future fix packs
- IBM DB2 V10 for z/OS 10.1 and future fix packs
- Microsoft SQL Server Enterprise Edition 2008 R2 and future fix packs

Eclipse Runtime Environment -- IBM Eclipse SDK V3.6.2 and future fix packs

Installation -- Capilano Components ( IBM Installation Manager and IBM Packaging Utility) V1.5.3

Java™ -- IBM Java SDK V6.0.9.2 and future fix packs

## Licensing

- Rational License Key Server V8.1.1 and future fix packs, modification levels, and their fix packs
- Rational License Key Server V8.1.3 and future fix packs, modification levels, and their fix packs

## Reporting and analysis

- IBM Cognos Business Intelligence V10.1.1 and future fix packs
- Rational Reporting for Development Intelligence V2.0.0.1 and future fix packs

## Web browsers

- Microsoft Internet Explorer 6.0 and future fix packs
- Microsoft Internet Explorer 7.0 and future fix packs
- Mozilla Firefox 3.5 and future fix packs
- Mozilla Firefox 3.6 and future fix packs
- Microsoft Internet Explorer 8.0 and future fix packs
- Mozilla Firefox 4.0 and future fix packs
- Microsoft Internet Explorer 9.0 and future fix packs
- Mozilla Firefox 5.0 and future fix packs

## Operating systems

### AIX

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

## Planning information

---

### *Packaging*

#### **IBM Rational Insight**

### **Security, auditability, and control**

---

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

### **Global Technology Services**

---

Contact your IBM representative for the list of selected services available in your country, either as standard or customized offerings for the efficient installation, implementation, or integration of this product.

---

## Ordering information

---

For ordering information, consult your IBM representative or authorized IBM Business Partner, or visit

<http://www-306.ibm.com/software/support/pa.html>

This product is only available via Passport Advantage. It is not available as shrinkwrap.

### **Product information**

Licensed function title	Product group	Product category
IBM Rational Insight Standard Edition	Process and Portfolio Management	Process and Portfolio Management
Program name	PID number	Charge unit description
IBM Rational Insight Standard Edition	5724-Y05	Per Floating User
IBM Rational Insight Standard Edition	5724-Y05	Per Floating User for System z
IBM Rational Insight Standard Edition	5724-Y05	Per Authorized User

## Charge metrics definitions

### Authorized User

Authorized User is a unit of measure by which the program can be licensed. An Authorized User is a unique person who is given access to the program. The program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User accessing the program in any manner directly or indirectly (for example, via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

**Note:** Some programs may be licensed where devices are considered users. In that case, the following applies. Any computing device that requests the execution of or receives for execution a set of commands, procedures, or applications from the program or that is otherwise managed by the program is considered a separate user of the program and requires an entitlement as if that device were a person.

### Floating User

Floating User is a unit of measure by which the program can be licensed. A Floating User is a person who is accessing the program at any particular point in time. An Install is an installed copy of the program on a physical or virtual disk made available to be executed on a computer. The program may be installed on any number of computers or servers, but if the Floating User simultaneously accesses more than one Install of the program, the Floating User requires a separate entitlement for each such Install. Licensee must obtain separate entitlements for each Floating User simultaneously accessing the program on each Install in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means.

**Note:** Some programs may be licensed where devices are considered users. In that case the following applies: Any computing device that requests the execution of or receives for execution a set of commands, procedures, or applications from the program or that is otherwise managed by the program is considered a separate User of the program and requires an entitlement as if that device were a person.

#### ***Cross-platform product for use on System z IFL engines***

Order the part numbers that follow when the product is intended to run on the Linux operating system on System z IFL engines. If the product is not intended to run on the Linux operating system on System z IFL engines, order from the other set of part numbers in this announcement. This set of part numbers provides the identical supply and authorization as the other set in this announcement.

---

### Terms and conditions

---

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

#### ***Licensing***

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use.

Part number products only, offered outside of Passport Advantage , where applicable, are license only and do not include Software Maintenance.

**License Information form number**

Program name	Program number	Form number
IBM Rational Insight	5724-Y05	L-ADON-8UX7CR; L-ADON-8UX77Z

The program's License Information will be available for review on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

**Limited warranty applies**

Yes

**Limited warranty**

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, consult the *IBM Software Support Handbook* found at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

**Program technical support**

Technical support of a program product version or release will be available for a minimum of five years from the general availability date, as long as your Software Maintenance is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Maintenance also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM , including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

**Money-back guarantee**

For clarification, note that if for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that for programs acquired under the IBM International Passport Advantage Agreement, this term applies only to your first acquisition of the program.

**Volume orders (IVO)**

No

**Passport Advantage applies**

Yes, and through the Passport Advantage website at

<http://www.ibm.com/software/passportadvantage>

This product is only available via Passport Advantage . It is not available as shrinkwrap.

**IBM Operational Support Services - SoftwareXcel**

No

**System i Software Maintenance applies**

No

**Educational allowance available**

Education allowance does not apply.

Special education prices are available for qualified customers through Passport Advantage .

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered destroyed or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective. IBM does not warrant that systems and products are immune from the malicious or illegal conduct of any party.

---

**Prices**

---

For pricing information, contact your IBM representative.

**Passport Advantage**

For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner, or authorized IBM Business Partner for Software ValueNet® , if applicable. Additional information is also available at

<http://www.ibm.com/software/passportadvantage>

**Business Partner information**

If you are an IBM Business Partner -- Distributor for Workstation Software acquiring products from IBM , you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBM ID and password are required.
