## Overview

IBM<sup>®</sup> Endpoint Manager portfolio, renamed to IBM BigFix<sup>®</sup>, is a globally trusted brand that optimizes computer security and can find, fix, and secure computer systems fast. BigFix products leverage a single infrastructure, single agent, and console, enabling continuous monitoring, threat protection, and incident response across servers, laptops, and desktops regardless of their location. A dynamic, content-driven messaging and management system, this innovative technology distributes the work of managing IT infrastructures out to the managed devices themselves, providing for unparalleled scalability and flexibility. The single, multipurpose agent controls multiple services regardless of where the endpoint is, optimizing configuration control and minimizing security risks.

Below is a listing of the name changes.

Old program name	New program name
IBM Endpoint Manager Platform	IBM BigFix Platform
IBM Endpoint Manager for Patch Management	IBM BigFix Patch
IBM Endpoint Manager for Lifecycle Management	IBM BigFix Lifecycle
IBM Endpoint Manager Starter Kit for Lifecycle Management	IBM BigFix Starter Kit for Lifecycle
IBM Endpoint Manager for Security and Compliance	IBM BigFix Compliance
IBM Endpoint Manager for Core Protection	IBM BigFix Protection
IBM Endpoint Manager for Core Protection Data Loss Prevention Add-on	IBM BigFix Protection DLP Add-on
IBM Endpoint Manager for Software Use Analysis	IBM BigFix Inventory

Program product media packs, electronic download images, publications, and license information will reference the old program names.

Note: Completion of renaming will occur with future announcements of new product releases and versions.

### New trade-up options

Two new Managed Virtual Server license options, that support trade-up scenarios from the BigFix Starter Kit to the full BigFix Lifecycle offering, are available. The Managed Virtual Server price metric simplifies pricing and is based on the number of server operating systems that a business needs to manage. This broader solution adds a number of key features beyond the BigFix Starter Kit for Lifecycle, including

operating system deployment, for re-imaging either to repair a computer or to deploy an operating system deployment on new machines (bare metal deployment). In addition, BigFix Lifecycle supports remote control capabilities to decrease on-site servicing costs, as well as advanced patch management, which reduces security exposures on mission critical servers.

For ordering, contact your IBM representative or an IBM Business Partner. For more information, contact the Americas Call Centers at: 800-IBM-CALL (426-2255).

## Key prerequisites

---

Refer to the [Software requirements](#) section.

---

## Planned availability date

---

July 7, 2015

---

## Description

---

### IBM BigFix platform

The core BigFix platform, the foundation architecture on which BigFix applications are delivered, includes powerful user and role-based security controls, broad platform coverage for the agent (90 plus operating system versions), and ongoing improvements for stability and performance throughout the console.

### IBM BigFix Patch

BigFix Patch optimizes the patch process by integration with native patch management tools provided by supported operating system vendors in order to simplify and automate the patch management process.

### IBM BigFix Lifecycle

BigFix Lifecycle, formerly known as IBM Endpoint Manager for Lifecycle Management, delivers comprehensive and powerful solutions for IT operations. In addition, BigFix Lifecycle now includes server automation capabilities and power management capabilities through the incorporation of two previously independent IBM Endpoint Manager solutions (IBM Endpoint Manager for Server Automation and IBM Endpoint Manager for Power Management).

### IBM BigFix Starter Kit for Lifecycle

BigFix Starter Kit for Lifecycle contains a subset of the broader BigFix Lifecycle functionality, including patch assessment and deployment as well as software distribution, and hardware and software inventory.

### IBM BigFix Compliance

BigFix Compliance delivers security configuration checklists that align with the most up-to-date industry and government benchmarks such as provided by the Center for Internet Security (CIS), the National Institute of Standards and Technology (NIST), and the Defense Information Systems Agency (DISA).

### IBM BigFix Protection

BigFix Core Protection delivers near real-time protection from malware and other malicious threats through file and web reputation, personal firewall, behavior monitoring, and more. It can protect physical and virtual endpoints from damage

caused by viruses, Trojan horses, worms, spyware, rootkits, web threats, and their new variants.

### **IBM BigFix Protection DLP Add-on**

BigFix Core Protection DLP Add-on offers a robust data loss prevention and device control solution that integrates into the anti-virus and anti-malware capabilities provided by the core protection solution to secure data, enforce security policies, and comply with the growing number of data privacy laws that affect the industry.

### **IBM BigFix Inventory**

BigFix Inventory provides the foundation for holistic software asset management by discovering all licensed and unlicensed software with in-depth granularity across all devices. It delivers the ability to monitor the number of copies deployed versus the number owned, which helps to keep organizations in compliance.

For additional information about the functionality available in the new program modules, refer to the old program module names in the previous IBM Endpoint Manager V9.0 and IBM Endpoint Manager V9.2 software announcements listed in the [Reference information](#) section.

## Services

---

### **Software Services**

---

IBM Software Services has the breadth, depth, and reach to manage your services needs. You can leverage the deep technical skills of our lab-based, software services team and the business consulting, project management, and infrastructure expertise of our IBM Global Services team. Also, we extend our IBM Software Services reach through IBM Business Partners to provide an extensive portfolio of capabilities. Together, we provide the global reach, intellectual capital, industry insight, and technology leadership to support a wide range of critical business needs.

To learn more about IBM Software Services or to contact a Software Services sales specialist, visit

<http://www.ibm.com/software/sw-services/>

## Ordering information

---

Product group: BigFix

Product:

- IBM BigFix Lifecycle
- IBM BigFix Compliance
- IBM BigFix Patch
- IBM BigFix Protection
- IBM BigFix Inventory
- IBM BigFix Starter Kit for Lifecycle
- IBM BigFix Protection DLP Add-on

Product category: BigFix

### **Passport Advantage**

These previously announced part number descriptions have been updated to reflect the product name changes.

### **IBM BigFix Lifecycle (5725-C43)**

### Passport Advantage trade up

Trade up to:	Trade up from:	Part number
IBM BigFix Lifecycle Managed Virtual Managed	IBM BigFix Starterkit for Lifecycle Managed Virtual Server Trade Up	D1I5FLL
IBM BigFix Lifecycle for zEnterprise BladeCenter Extension and Linux on z Systems™ Managed Virtual Server	IBM BigFix Starterkit for Lifecycle for zEnterprise BladeCenter Extension and Linux on z Systems Managed Virtual Server Trade Up	D1I5GLL

Customers must have current active Software Subscription and Support in place for all of the licenses that will be given up by the use of the trade-up parts. Those customers with lapsed support need to reinstate their S&S contracts to be eligible for trade ups.

Consult your IBM representative if you have any questions.

---

## Terms and conditions

---

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

### Licensing

---

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

### Agreement for Acquisition of Software Maintenance

---

These programs are licensed under the IBM Program License Agreement (IPLA) and the associated Agreement for Acquisition of Software Maintenance, which provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available. These programs have a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

## **License Information number**

---

The program's License Information will be available for review on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

## **Limited warranty applies**

---

Yes

## **Limited warranty**

---

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, consult the IBM Software Support Handbook found at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

## **Program technical support**

---

Technical support of a program product version or release will be available for a minimum of five years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect.

This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support (Software Maintenance) also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

## **Money-back guarantee**

---

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

## **Volume orders (IVO)**

---

No

### **Passport Advantage applies**

---

Yes, and through the Passport Advantage website at <http://www.ibm.com/software/passportadvantage>

### **Software Subscription and Support applies**

---

Yes. Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your IBM Software Support Handbook at

<http://www.ibm.com/support/handbook>

Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage website at

## Statement of good security practices

---

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective. IBM does not warrant that systems and products are immune from the malicious or illegal conduct of any party.

### IBM Global Financing

---

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www.ibm.com/financing>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.

For more financing information, visit

<http://www.ibm.com/financing>
