IBM Z Xplore is a learning experience available year-round at no-cost to any individual looking to develop in-demand IBM zSystems skills. The learning platform, open to individuals ages 16 years and older (with consent from parent guardian if 16-18), takes learners through guided educational paths and code challenges in four progressive levels: Fundamentals, Concepts, Advanced and Extended. Learners will need to complete the challenges within each level in order to progress, which includes hands-on exercises, videos, quizzes and reading materials.

Two digital badges are offered within the learning platform: IBM Z Xplore Concepts Badge, earned after completion of Fundamentals and Concepts, and IBM Z Xplore Advanced Badge, earned after completion of Advanced.

Three reasons to be a part of IBM Z Xplore:

1. Hands-on challenges with direct access to IBM zSystems environments
2. Earn industry-recognized badges to demonstrate for future career opportunities
3. User community and chances to earn IBM swag
