

IBM Spectrum Protect Plus make your data more secure

IBM® Spectrum Protect™ Plus is a data recovery and re-use solution for virtual environments and databases that can be deployed in minutes and protect your environment within an hour. It simplifies data protection, whether data is hosted in physical, virtual, software-defined or cloud environments. It can be implemented as a stand-alone solution or integrate with your IBM Spectrum Protect environment to off-load copies for long term storage and data governance with scale and efficiency.

IBM
Spectrum
Protect Plus

Making data availability easy. Easy setup, management and recovery

Key features

- Easy to use, Simple deployment, Fast recovery
