

Data Sheet

2020 KLAS Category Leader for Cardiology Hemodynamics

Merge Hemo

KLAS™ gathers data from thousands of healthcare professionals and clinicians on software, services and medical equipment to create reports, trends and statistical overviews. In the 2020: Best in KLAS: Software & Services Report KLAS recognized Merge Hemo™ as the Category Leader for Hemodynamics for the ninth year in a row.

Find out what our customers had to say about Merge Hemo.

Data Exportation

“It pulls data fields from all of the statements we put in and exports those fields. Merge Hemo is much better with data than any other hemo system on the market.”

Workflow Efficiency

“Merge Hemo has really streamlined operations in our cath lab; it has dramatically enhanced our workflow. Merge Hemo is a great addition to our overall operations.”

Quality Reporting

“I’ve worked on a couple of projects regarding tangible outcomes and Merge Hemo’s effect in those outcomes is very high. Our physicians value the system and how it can help them and our analytics group have access to measurable information, and that has helped out tremendously.”

Integration

“Merge Hemo provides functionality for multiple facilities, so we have a view of all of our cath labs across the system. The tight integration with Merge Cardio is nice for physician reporting.”

User Experience

“Merge Hemo is very user friendly and it’s easy to make changes to menus on the back end. Also, the reporting system is very good, and the user-defined reports are very helpful.”

How Watson Health stacks up against the competition

How do Cardiology Hemodynamics solutions compare?

At Watson Health, we offer a powerful combination of resources, expertise, technology and vision to help your cardiology department thrive. To learn more about our solutions, visit ibm.com/watson-health/solutions/cardiology-solutions
