

IBM Assembly Test and Services Event Calendar

Whether you are creating new semiconductor designs, developing inventive ways to maximize performance beyond silicon scaling, or coding new apps on IBM platforms, IBM® Assembly and Test Services teams can help you meet your goals.

Due to Covid-19, we are actively assessing events we can attend throughout 2020 and 2021. Below are the event(s) we are scheduled to attend in-person:

53rd International Symposium on Microelectronics - iMAPS
5–8 October 2020
San Diego, CA, USA
