

Your Result: **EARLY ADOPTER**

When it comes to digital transformation, mobile is the fastest path to value. Based on your answers, your organization has plenty of room for growth in budget, resources and business buy-in for mobile success.

We get it – fully embracing mobile means navigating a whole new set of complex demands and expectations. Change can be hard, and to get mobile right requires consistent and iterative change. But sticking with your current mobile strategy and approach is already putting you at competitive risk.

The Good News:

You're not alone. More than half of companies don't look for strategic alignment when they prioritize mobile initiatives. But those who *do*, see real value quickly:
