Based on G2's 2022 Fall Reports

Ease of Use

**98%**

90% category average

"I like IBM Robotic Process Automation because it is effective for automating up-to-date work processes and dealing with the manual process."

- G2 Reviewer ★★★★★

Likely to Recommend

**96%**

"IBM RPA is an easy-to-use software, quite flexible depending on the type of company. The IBM RPA manuals are comprehensive and easy to understand. They come in handy when I want to implement new features to the bots."

- G2 Reviewer ★★★★★

Review Star Breakdown

A bar chart representing the review star breakdown. It consists of 20 vertical bars. 19 bars are blue, representing 4 or 5 stars, and 1 bar is purple, representing 1-3 stars. Below the chart is the text "99% of users rated us 4 or 5 stars".

**99%**

of users rated us  
4 or 5 stars

"I like IBM RPA because it is effective in its core function of automating processes. There are no distractions in the user interface and no unnecessary procedures to hinder the experience. It is a solid software that does its job perfectly."

- G2 Reviewer ★★★★★
