

Rethink your data infrastructure with IBM FlashSystem 9100

Driven by data: NVMe-accelerated, Multi-Cloud-enabled storage systems built with IBM® Spectrum Virtualize™ and IBM FlashCore®

If you want to:

Modernize your infrastructure by expanding existing storage to your cloud

Unlock the value of data and accelerate business execution

Drive ROI, reduce CapEx and OpEx

Bring new efficiencies to your Multi-Cloud environment with heterogeneous storage

Modernize data protection for your most valuable asset

Then your storage needs to be:

✓ Fast

✓ Modern

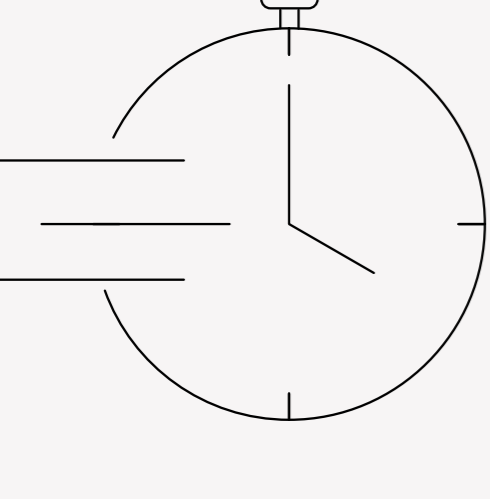

✓ Agile

✓ Flexible

✓ Well-supported

Fast

3X Better performance than previous all-flash solutions¹

Minutes to deploy data protection and data reuse solution for virtualized environments

Modern

6X more storage in the same footprint²

60% greater energy efficiency³

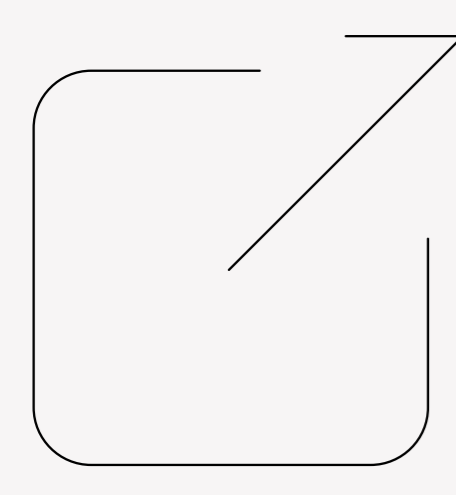

Up to **5X** data reduction for 2PB in 2U with compression and deduplication⁴

End-to-end **NVMe** for future-proof infrastructure

Predictive **analytics** with AI cloud-based support

Agile

Up to **10M** when clustered to **scale out**

Up to **32PB** to **scale up**

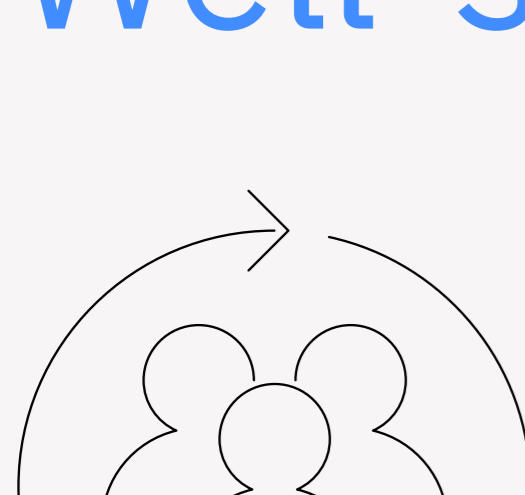

Flexible

More than **440** storage systems from IBM and other vendors supported by **enterprise-class data services**

Pay-as-you-**grow** acquisition with **IBM Storage Utility Offering**

Well-supported

Up to **5:1** data reduction guaranteed⁵

100% availability **guaranteed** for systems using IBM HyperSwap® and deployed by IBM Lab Services

Upgrade after **3 years** of ownership with IBM Controller Upgrade Program for **same cost as ongoing system maintenance**

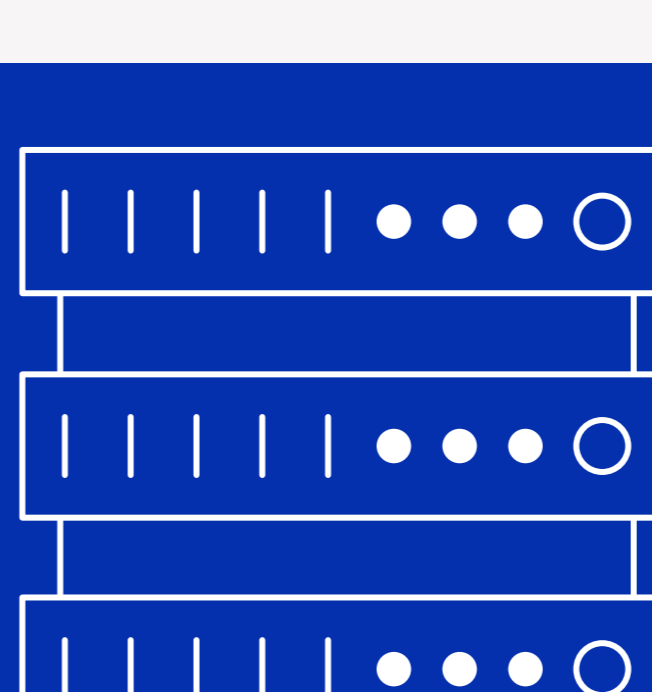

7 years of **24x7 support** available

IBM **FlashCore Modules** **covered for read/write endurance** while under warranty or maintenance

Up to **45 days** to migrate data at **no extra charge**

⁵ The Data Reduction Guarantee requires a contract specifying the terms and limitations of the guarantee. Savings rates greater than 50% or including already compressed or encrypted data require workload analysis using IBM tools. In the unlikely event that you don't get the guaranteed compression savings, IBM will provide the hardware and authorizations subject to contract terms to match the savings and performance at no charge. Contact your IBM representative or IBM Business Partner for complete details.
