

IBM Garage Power10 Cloud discovery workshop

Participate in a discovery workshop

Join our no-cost virtual working session. We'll tackle your unique IT challenges and develop the best possible hybrid cloud infrastructure and implementation plan for your organization.

Benefits of attending a discovery workshop

- 1 Explore your modernization options with hybrid cloud solutions from IBM® Power®
- 2 Map your modernization needs to the costs and benefits of each solution.
- 3 Determine your organization's next steps in the modernization journey with Power10

Methodology

Enterprise Design Thinking

Some examples of use cases covered are

Hybrid cloud for SAP HANA®, AIX® hybrid cloud deployment, IBM i hybrid cloud deployment, Power10 migration planning, application modernization with Red Hat® OpenShift® and Oracle® consolidation.

How can I be part of a workshop?
