

“SoftLayer has been transformative for us. The platform allows us to offer a highly competitive alternative in key market segments.”

—Jerry Stabile, Chief Executive Officer, eZuce, Inc.

Business challenge

To deliver its Viewme videoconferencing solution as a cloud-based service, eZuce, Inc. sought a scalable, high-performance cloud hosting platform.

Transformation

Evaluating cloud offerings that included Amazon Web Services (AWS) and Google technology, eZuce determined that the SoftLayer® platform offered the most cost-effective hosting solution. The company provisioned SoftLayer infrastructure in Dallas, Texas; Washington, DC; and Singapore to launch its cloud-based service for customers worldwide.
