

# 在大型和多元化企业中提高敏捷性

## 业务挑战:

由于业务的迅速发展，总部位于香港的招商局需要一个企业容器即服务（CaaS）平台来支持集团的云计算和数字化转型，以及可扩展性和敏捷性，以满足快速增长的业务需求。

## 解决方案:

客户与IBM®合作开发了CaaS解决方案，并将其与客户现有的平台即服务（PaaS）解决方案的八个组件集成在一起，包括API网关和DevOps，监视和日志记录解决方案。CaaS解决方案是基于Red Hat OpenShift软件上的IBM Cloud Paks™。

## 工作成果:

- 支持跨业务部门的云/数字化转型
- 通过更快的云平台配置提高敏捷性

## 解决方案包括:

- IBM Cloud Paks on Red Hat OpenShift:
- IBM Global Business Services

# Boosting agility across a large & diverse enterprise

## Business Challenge:

Facing a business boom, a state-owned conglomerate based in Hong Kong needed an enterprise containers-as-a-service (CaaS) platform to support the group's cloud and digital transformation and to gain scalability and agility to meet rapidly growing business requirements.

## Solution:

The group worked with IBM® to develop a CaaS solution and integrate it with eight components of the group's existing platform-as-a-service (PaaS) solution, including an API gateway and DevOps, monitoring and logging solutions. The CaaS solution is based on IBM Cloud Paks™ on Red Hat OpenShift software.

## Outcomes:

- Supports cloud/digital transformation across business units
- Improves agility via faster cloud platform provisioning

## Solution Components:

- IBM Cloud Paks on Red Hat OpenShift:
  - IBM Global Business Services
