Set the foundation for trusted digital experiences with IBM Global Financing

Financing and IT lifecycle offerings for IBM Z®

The rate of digital transformation is challenging, requiring businesses of all sizes to transform. While a successful transformation requires a secure cloud platform to deliver insights, protect data and exceed service expectations, it also requires a financial strategy to help acquire, maintain and quickly adapt to future requirements.

Today's IT infrastructure must be designed to help businesses build insight and intelligence to enrich customer experiences, protect data from threats, drive innovation, and accelerate services delivery through the cloud, while enabling budget control and business financial metrics.

Fully customized financing for mainframe solutions

IBM Global Financing experts can work with you to design a fully customized IT financing and asset management strategy that helps achieve your project financial targets, covering consulting, services, software and hardware from IBM and other vendors.

IBM products are warranted according to the terms and conditions of the agreements under which they are provided.

IBM Global Financing offerings are provided through IBM subsidiaries and divisions worldwide to qualified commercial and government clients. Rates and availability are based on a client's credit rating, financing terms, offering type, equipment and product type and options, and may vary by country. Non-hardware items must be one-time, non-recurring charges and are financed by means of loans. Other restrictions may apply. Rates and offerings are subject to change, extension or withdrawal without notice and may not be available in all countries. IBM and IBM Global Financing do not, nor intend to, offer or provide accounting, tax or legal advice to clients. Clients should consult with their own financial, tax and legal advisors. Any tax or accounting treatment decisions made by or on behalf of the client are the sole responsibility of the client.

Please Recycle

Lease or pay your IBM Z solution over time	Combine software, services and hardware from IBM and other vendors into predictable payments over time with IBM Financing leases and loans.
Accelerate your IBM Z project's cash flow break even point	We work with you to customize a financing solution that will fit your needs. Get an integrated financing solution that spans an entire project's lifecycle and facilitates IT infrastructure including mobile devices, consulting, and services.
Improve TCO and accelerate ROI	Lower your costs with Fair Market Value leases that help you improve total cost of ownership and accelerate return on investment.
Keep your mainframe technology current over time	Upgrade to next level technology with little or no change in payments per MIP.

Why IBM?
