

Highlights

Did you know...

- Your free 14-day trial of IBM SPSS Statistics includes complete versions of 15 specialized modules?
 - The SPSS Statistics online Help menu includes case studies, tutorials and an interactive statistics coach?
 - IBM hosts an SPSS Community where you can access books, articles, plug-ins and more?
-

Maximize your IBM SPSS Statistics trial software

Did you know...?

Your trial software gives you access to valuable resources designed to help you get up and running quickly with IBM® SPSS® Statistics and explore the latest features.

Software modules

Your trial version of SPSS Statistics contains complete versions of:

IBM SPSS Statistics Base	IBM SPSS Decision Trees
IBM SPSS Advanced Statistics	IBM SPSS Direct Marketing
IBM SPSS Bootstrapping	IBM SPSS Exact Tests
IBM SPSS Categories	IBM SPSS Forecasting
IBM SPSS Complex Samples	IBM SPSS Missing Values
IBM SPSS Conjoint	IBM SPSS Neural Networks
IBM SPSS Custom Tables	IBM SPSS Regression
IBM SPSS Data Preparation	

Download trial versions of these standalone IBM SPSS products: [IBM SPSS Amos](#), [IBM SPSS SamplePower®](#) and [IBM SPSS Visualization Designer](#).

Online Help

The extensive online help guide contains many useful features.

- Case studies show you how to create different types of statistical analyses and how to interpret the results. See **Help > Case Studies**.
- The interactive Statistics Coach can help you determine which procedures are best suited for the outcomes you want to achieve. See **Help > Statistics Coach**.
- Tutorials provide a step-by-step, hands-on guide to many features in SPSS Statistics. See **Help > Tutorial**.

IBM Programmability Extension

Add algorithms and commands written in other languages, such as R and Python. See **Add-ons > Programmability Extension > IBM SPSS Statistics Programmability Extension**.

IBM SPSS Community

Visit the IBM SPSS Community on [developerWorks](#) to download utilities and plug-ins, read articles and books, interact with the other users and much more.

See what's new in SPSS Statistics 23

The latest version contains new tools and features to help you:

- Deeper Predictive Insights
 - Uncover hidden casual relationships among large numbers of time series using temporal causal modeling (TCM)
- Geospatial Analytics
 - Find trends over time and space using Spatio-Temporal prediction (STP)
 - Create association rules that incorporate geospatial attributes using the generalized spatial association rule (GSAR)
- Improved Productivity
 - Improve categorical principal component analysis with non-parametric bootstrapping, clustering of case and new rotation options for better convergence
 - Utilize programmability enhancements for R with the ability to test R programs using full features as well as a R-integrated development environment for easy debugging.
 - Engage the next generation of web output with more interactivity and functionality with web server support
 - Import, read and write new versions of Stata files
 - Realize faster performance with bulk export/insert to the database
 - Support to authenticate via a badge reader

About IBM Business Analytics

IBM Business Analytics software delivers data-driven insights that help organizations work smarter and outperform their peers. This comprehensive portfolio includes solutions for business intelligence, predictive analytics and decision management, performance management, and risk management.

Business Analytics solutions enable companies to identify and visualize trends and patterns in areas, such as customer analytics, that can have a profound effect on business performance. They can compare scenarios, anticipate potential threats and opportunities, better plan, budget and

forecast resources, balance risks against expected returns and work to meet regulatory requirements. By making analytics widely available, organizations can align tactical and strategic decision-making to achieve business goals. For further information, visit: ibm.com/business-analytics.

Request a call

To request a call or to ask a question, [click here](#) or call 800-543-2185. An IBM representative will respond to your inquiry within two business days.
