

# IBM Business Continuity Solutions for **Oracle** HCM Cloud

## Managing **Workforce Health and Safety** in Oracle HCM Cloud

### Creating a Culture of Safety

Serious injury, illness, or even death is easily preventable in the workplace. It's important that every organization has a system in place to quickly manage and resolve incidents, and to prevent future occurrences. Not only will accident prevention save you time and money, but keeping your workers free from harm is required at both the local and national levels.

### Quickly Report, Review & Resolve

Want to boost employee morale and overall performance? Let your employees know that you care about their safety and rights by creating a work environment that protects them from potential harm. The Workforce Health and Safety Incidents is an easy-to-use application that allows employees to quickly report, review, and resolve any incidents in the workplace.

### How Does Workforce Health and Safety Help?

With Workforce Health and Safety Incidents you can:

Rapidly report incidents involving vehicles, environmental spills or releases, near misses, property damage, and notice of violation.

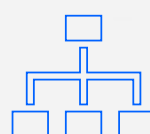

Injury or illness prevention by identifying high-risk areas or conditions.

Assign and remind incident owners of activities.

Create analytics and reports that monitor progress and detect patterns and trends of incidents.

Trust that data and functions are secure with employees assigned to manage the process.

Prevent work disruptions with HCM Cloud Global HR data and processes.

# Aiding the health and wellbeing of employees impacted by COVID-19

IBM's implementation of Oracle's **Health & Safety** module will enable organizations to have a more comprehensive view of the possible disruption caused by the COVID-19 pandemic.

IBM will implement this application and make necessary configuration changes to evolve this **incident management application** to help track employee well being within an organization.

Key features:

**Oracle will provide Workforce Health and Safety at no charge for the next year** (or as long as required to deal with the COVID-19 crisis) to **current HCM Cloud customers in production** (Core HR module is a prerequisite for this module).

Pre-built assets for configuration, security, test scripts and training manuals.

Implemented in 2 weeks or less with total client effort of 1 day or less

\$35K CAD cost for Oracle HCM Cloud (Core HR) customers

# We're here for you.
