

# Revised technical information: IBM Cognos Controller

## Table of contents

<a href="#">1 Overview</a>	<a href="#">1 Regional availability</a>
<a href="#">1 Program number</a>	

## Overview

For all releases after September 1, 2022, IBM<sup>(R)</sup> Cognos<sup>(R)</sup> Controller will no longer support the following programs and compatibility:

- Oracle Database
- IBM Db2<sup>(R)</sup> Database
- IBM Cognos Analytics for standard reports
- 32-bit compatibility for both Windows<sup>TM</sup> OS and Microsoft<sup>TM</sup> Office

IBM will continue to support these supporting programs and 32-bit Excel for existing in-market streams, specifically versions 10.4.0, 10.4.1, and 10.4.2, until further notice.

This change to support provides more focus on functional improvements and modernization, as well as better performance, and represents a simpler and lower-maintenance architecture.

A [database migration tool](#) is available to help your organization migrate its database from Oracle and Db2 to Microsoft SQL Server.

## Program number

Program number	VRM	Program name
5724-W24	10.4.0, 10.4.1, 10.4.2	IBM Cognos Controller
