

# Domino V10: The future of business apps is here

The backbone of critical business applications for years, if not decades, Domino has made a major leap into the future with Domino V10, thus staying true to its [#dominoforever](#) promise.

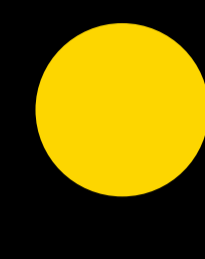

## Destination Domino V10

Announced through a series of [#domino2025](#) events, Domino V10 is part of the next era of rapid application development.

Its value has been extended dramatically, as it is now open to a wider range of developers.

## Here are the main reasons for choosing Domino V10:

Without Domino

“The Total Cost of Ownership to use, develop, and maintain our full business environment with standard ERP/HRM/PM solutions from Microsoft, SAP, Salesforce would have been **15X that of Domino.**”

—Bernd Gewehr,  
Head of IT at Vössing.

## Domino V10 is more **cost-effective**

With Domino

**Domino V10 delivers one of the lowest total costs of ownership** for application development and workflow on the market.

## Domino is **proven**

With Domino

Domino is so **reliable, safe, and secure** that leading accounting firms trust their audit processes to Domino.

Without Domino

The average cost of a data breach in 2017 was **\$3.86 million**, but mega breaches of **1 million** records or more can cost nearly **10 times that amount.**

## Domino is **modern**

Using **Domino V10**, you can leverage much more common and universally used technology, like JavaScript, node.js and LotusScript extension. Thus, **your talent pool just got a lot bigger.**

Without Domino

There are **4.5 million** JavaScript developers and **500,000 node.js developers**, according to LinkedIn. Their skills are often wasted through apps that only require one programming language or the other, and not both.

With Domino

Using **Domino V10**, you can leverage much more common and universally used technology, like JavaScript, node.js and LotusScript extension. Thus, **your talent pool just got a lot bigger.**

With Domino

Using **Domino V10**, you can leverage much more common and universally used technology, like JavaScript, node.js and LotusScript extension. Thus, **your talent pool just got a lot bigger.**

Without Domino

Gallup estimates employee disengagement costs U.S. companies between **\$483 billion** and **\$605 billion** each year in lost productivity.

With Domino

**Domino V10 helps you** make sure your IT architecture is one that is flexible enough to **put your applications wherever you need to:** on-premises, in hybrid or in a multi-cloud environment.

## Domino **self-heals**

With Domino

**Domino V10** takes availability further with **self-healing** and **auto-repair.**

Without Domino

Maintenance and repair activities take up a lot of time and are often prioritized over what's truly important for the business.
