

# Get over commitment issues... with IBM® SPSS® Statistics Subscription

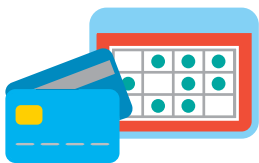

Start with a **free trial** for 14 days. And if you want to keep it going, simply convert to a single-month subscription.

**You decide** where to take it from there. **No strings attached.**

Easy access to all that IBM SPSS Statistics has to offer—on a month-to-month basis

A no-commitment subscription lets you **do things your way**:

**Pay as you go** for just a month or as long as you like and stay on budget

**Immediately access** the most recent updates (no need to worry about versions)

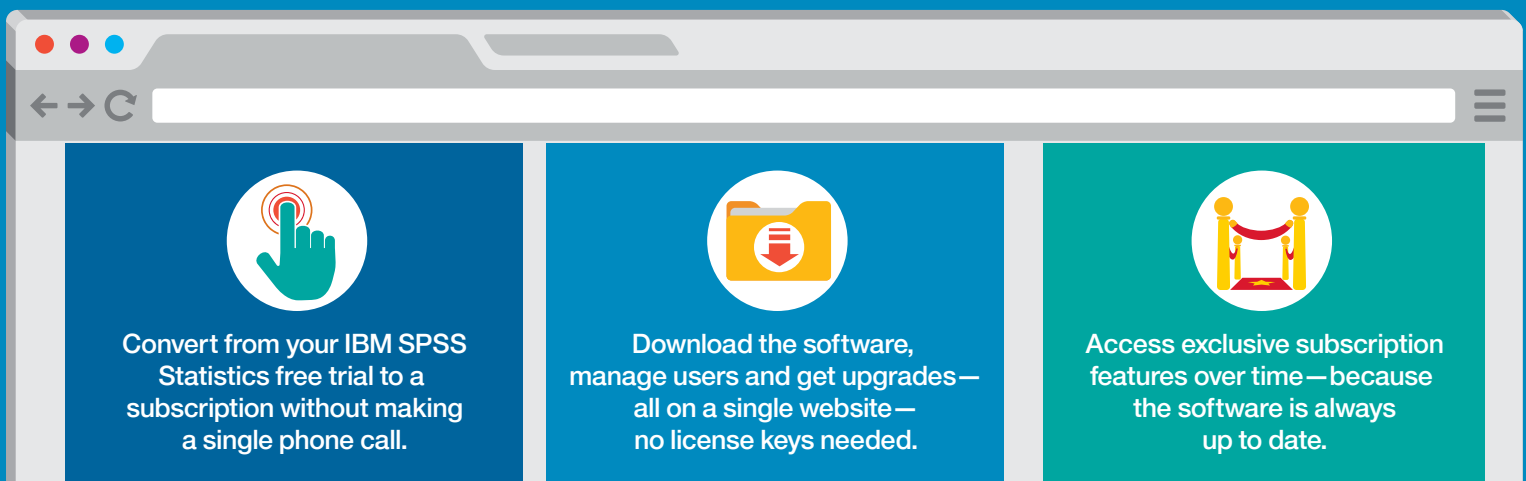

**Choose** any (or all) of three optional add-ons

IBM SPSS Statistics Subscription delivers the statistical tools and procedures you need to address a broad range of problems. Take advantage of everything from crosstabs and linear regressions to Monte Carlo simulation and geospatial analytics. Then extend those built-in capabilities with Python, R or Java code.

## A relationship that's as uncomplicated as it gets

Everything you need to manage your subscription resides on a **single web page**, making it easy to:

Convert from your IBM SPSS Statistics free trial to a subscription without making a single phone call.

Download the software, manage users and get upgrades—all on a single website—no license keys needed.

Access exclusive subscription features over time—because the software is always up to date.
