

# Optimize your budget, quickly respond to business needs

---

## Highlights

- Control budgets and preserve cash flow
  - Quickly respond to business needs
  - Chose certified for quality and reliability
- 

## IBM Certified Pre-Owned servers, storage, parts and features configured to meet your requirements

Today, making smart IT investment decisions is more important than ever. From traditional on-premises infrastructure to private or hybrid cloud environments, IBM Certified Pre-Owned offers businesses of all sizes a cost-efficient solution to match your product, budget, timing and quality requirements.

IBM Certified Pre-Owned helps clients realize the following three key benefits:

- Enhance cash flow and control budgets
- Quickly respond to business needs
- Help ensure quality and reliability

### **Control budgets and cost**

Managing your investments for maximum return is critical. IBM Certified Pre-Owned servers, storage, parts and features can help IT departments control cost and budget and lower total cost of ownership.

Attractive payment plans are available from IBM to accelerate your project as they provide expanded credit capacity and further help preserve budgets and cash.

## Quickly respond to business demands

In today's rapidly changing world, IT departments need to speed up response to new business needs. IBM Certified Pre-Owned can quickly be configured to match your product, budget, and timing requirements.

IBM Certified Pre-Owned offers a large inventory of IBM Power® Systems, IBM Z®, IBM Storage solutions, upgrades, expansion units, parts and features -- including IBM withdrawn technology-- configured to your business needs.

## Quality backed up by IBM certification

The IBM certification specifies that the product has been verified through our worldwide ISO certified remanufacturing processes. IBM Certified Pre-Owned servers and storage are remanufactured to original IBM engineering specifications using only parts specified in an authentic IBM Bill of Materials.

The remanufacturing process for each unit uses the specific serial number history from IBM maintenance records to ensure quality and reliability. Each system is delivered with a 90 day satisfaction guarantee.

Access to in-house quality expert engineers and IBM Technical Support Services, experience from current client installations, and integration with current technology requirements positions IBM as a single, quality source for all your IT infrastructure needs.

Testing and quality inspection performed to current IBM manufacturing standards makes IBM Certified Pre-Owned immediately eligible for IBM maintenance.

IBM Certified Pre-Owned devices are remanufactured in IBM plants worldwide which employ the same set of standards and quality and reliability tests.

For further assurance, IBM Certified Pre-Owned is only resold by IBM or IBM Business Partners.

## Why IBM?

IBM Certified Pre-Owned is refurbished and sourced through IBM Global Asset Recovery Services. With more than three decades of experience in advancing IT recycling and refurbishment, our worldwide operations and logistics processes are ISO 14001 - 215 certified and cover return, remanufacturing, demanufacturing and remarketing.

IBM is committed to environmental leadership in all its business activities, from its operations to the design of its products and use of its technology. IBM's corporate policy on environmental affairs, first issued in 1971, is supported by the company's global environmental management system. It is the key element of the company's efforts to achieve results consistent with environmental leadership and ensures the company is vigilant in protecting the environment across all of its operations worldwide.

IBM Global Financing offerings are provided through IBM subsidiaries and divisions worldwide to qualified commercial and government clients. IBM Global Financing lease and financing offerings are provided in the United States through IBM Credit LLC. Rates and availability are based on a client's credit rating, financing terms, offering type, equipment and product type and options, and may vary by country. This offering does not guarantee that credit will be provided. Non-IBM content which is part of an overall IBM end user client solution may also be eligible for financing through IBM Global Financing. Non-hardware items are financed by means of loans. Other restrictions may apply. Rates and offerings are subject to change, extension or withdrawal without notice and may not be available in all countries. IBM and IBM Global Financing do not, nor intend to, offer or provide accounting, tax or legal advice to clients. Clients should consult with their own financial, tax and legal advisors. Any tax or accounting treatment decisions made by or on behalf of the client are the sole responsibility of the client. For IBM Credit LLC in California: Loans made or arranged pursuant to a

California Financing Law license.
