IBM Product Master V12.0, formerly IBM InfoSphere Master Data Management Collaborative Edition, provides trusted product information management and master data management capabilities for enterprises; IBM InfoSphere Advanced Data Preparation now offers committed term license option

Overview

IBM^(R) Product Master, formerly known as IBM InfoSphere^(R) Master Data Management Collaborative Edition, provides trusted product information management (PIM) and master data management (MDM) capabilities. IBM Product Master aggregates information from any upstream system, enforces data quality rules to help ensure data accuracy, and synchronizes the trusted product data with downstream systems.

- Helps users to understand data. Intuitive persona or role-based user interfaces simplify data management for business users.
- Improves data stewardship and governance. Delivery of trusted information across the enterprise is consistent and fast.
- Provides powerful workflow. Collaborative authoring of product information streamlines critical business processes, including new product introduction (NPI) process.
- Provides performance and scalability. IBM Product Master scales to support large volumes of enterprise data.
- Available on IBM Cloud^{TM}. The fully managed cloud option provides flexibility and can lower cost through a subscription-based pricing model.

New in version 12.0

IBM Product Master Collaborative Edition V12.0 brings the following enhancements to the persona user interface:

- Secondary spec support
- Capability to hide empty collaboration areas and steps

InfoSphere Advanced Data Preparation

InfoSphere Advanced Data Preparation delivers a committed term license option. As organizations adopt multicloud architectures for their most critical applications, an alignment of pricing and consumption models becomes even more important.

Committed term licenses are a new license type for IBM clients. Similar to monthly licenses, committed term licenses enable clients to purchase licenses for IBM software in a cloud-centric model.

Committed term licenses are designed and priced to:

- Make it easier for organizations to acquire IBM software
- Align consumption models and spend to those clients accustomed to cloud-based solutions
- Align with the Red Hat[(R)] subscription model to deliver a consistent buying experience across product portfolios

Committed term licenses are available for new license sales of IBM InfoSphere Advanced Data Preparation. Committed term licenses, available for a minimum of 12 months, can be billed annually, quarterly, or monthly.

IBM Cloud Pak[(R)] for Data

IBM Cloud Pak for Data is a data and analytics platform with built-in governance. It simplifies and unifies how you collect, organize, and analyze data to accelerate the value of data science and artificial intelligence (AI). This multicloud platform delivers a broad range of core data microservices, with the option to add more from a growing services catalog. IBM Cloud Pak for Data offers greater flexibility, security, and control, along with the benefits of the cloud without having to move your data.

IBM Watson[(R)] Knowledge Catalog, provides a machine learning (ML) catalog for data discovery, data cataloging, data quality, and governance. It helps data users quickly discover, curate, categorize, and share data assets, data sets, and analytical models.

IBM Watson Knowledge Catalog is included in IBM Cloud Pak for Data Enterprise Edition.

IBM Cloud Pak for Data Enterprise Edition

Trade-up part numbers are now available for IBM InfoSphere Information Governance Catalog and IBM InfoSphere Information Analyzer entitlements to help facilitate organizations moving to IBM Cloud Pak for Data Enterprise Edition. Both production and nonproduction trade-up options are available.

Available trade-up options:

- IBM InfoSphere Information Governance Catalog to Cloud Pak for Data Enterprise Edition
- IBM InfoSphere Information Analyzer to Cloud Pak for Data Enterprise Edition

Committed term license

Current IBM InfoSphere Information Governance Catalog and IBM InfoSphere Information Analyzer entitlements are also eligible for a committed term license option on IBM Cloud Pak for Data Enterprise Edition.

Committed term licenses are a new license type for IBM clients. Similar to monthly licenses, committed term licenses enable clients to purchase licenses for IBM software in a cloud-centric model. Committed term licenses, available for a minimum of 12 months, can be billed annually, quarterly, or monthly.

Key requirements

Supports AIX[(R)], Linux[(R)], and Windows[TM].

For details, see the Software requirements section.

Planned availability date

May 15, 2020

Accessibility by people with disabilities

Accessibility Compliance Reports (previously known as a VPAT) containing details on accessibility compliance to standards, including the Worldwide Consortium Web Content Accessibility Guidelines, European Standard EN 301 349, and US Section 508, can be found on the IBM Accessibility Conformance Report Request website.

Charge metric

The charge metrics for the licensed products can be found in the following License Information documents:

Program identifier	License Information document title	License Information document number
5725-E59	IBM Product Master	L-JERN-BLP3J8
5737-K93	IBM InfoSphere Advanced Data Preparation	L-RDOS-BHGPNU
5737-H76	IBM Cloud Pak for Data	L-DNAA-BLKTDJ

Select your language of choice and scroll down to the Charge Metrics section. Follow-on releases, if any, may have updated terms. See the License Information documents website for more information.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

This product is only available through Passport Advantage.

Licensing

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

Software Maintenance

Licenses under the IBM International Program License Agreement (IPLA) provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available. Two charges apply: a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

License Information number

The following License Information document applies to the offering in this announcement:

Program identifier	License Information document title	License Information document number
5725-E59	IBM Product Master	L-JERN-BLP3J8
5737-K93	IBM InfoSphere Advanced Data Preparation	L-RDOS-BHGPNU
5737-H76	IBM Cloud Pak for Data	L-DNAA-BLKTDJ

Follow-on releases, if any, may have updated terms. See the License Information documents website for more information.

Limited warranty applies

Yes

Limited warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information about known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, see the IBM Support Guide.

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program technical support

Technical support of a program product version or release will be available for a minimum of three years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect.

This technical support allows you to obtain assistance (by telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support (Software Maintenance) also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, through an announcement letter, of discontinuance of support with 12 months' notice.

If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

For additional information about the IBM Software Support Lifecycle Policy, see the IBM Software Support Lifecycle Policy website.

Money-back guarantee

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Volume orders (IVO)

No

Passport Advantage applies

Yes, information is available on the Passport Advantage and Passport Advantage Express website.

Software Subscription and Support applies

Yes. Software Subscription and Support, also referred to as Software Maintenance, is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance by telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, see the IBM Support Guide. Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

Unless specified otherwise in a written agreement with you, IBM does not provide support for third-party products that were not provided by IBM. Ensure that when contacting IBM for covered support, you follow problem determination and other instructions that IBM provides, including in the IBM Support Guide.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, go to the Passport Advantage and Passport Advantage Express website.

Variable charges apply

No

Educational allowance available

Education allowance does not apply. Education software allowance does not apply. Special education prices are available for qualified clients through Passport Advantage.

Statement of good security practices

IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

Prices

For all local charges, contact your local IBM representative or IBM Business Partner.

Business Partner information

If you are an IBM Business Partner acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBMid and password are required to access the IBM Passport Advantage or IBM PartnerWorld(R) website.

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative or IBM Business Partner. Additional information is also available on the Passport Advantage and Passport Advantage Express website.
