

# IBM STORWIZE FAMILY TRANSFORMS REMOTE REPLICATION

Customers of all sizes need remote replication to protect data in case of a disaster

With traditional replication solutions, network utilization may be as low as **20%**<sup>1</sup> so you are paying for a lot of network bandwidth you can't use

IBM Storwize family IP replication with integrated Bridgeworks SANrockIT technology can improve network utilization up to **3 times**<sup>1</sup>

So you can use less networking infrastructure and save costs

Or you can transfer data faster to recover more quickly in the event of a disaster
