

# IBM Security Expert Labs for i2

IBM Security Expert Labs services for IBM Security i2® provide technical and domain subject matter experts who can assist you at any point in your intelligence analysis journey.

## Reduce Time to Deployment and Increase User Adoption

Get paired with a trusted advisor who can help you deploy, configure and customize i2 software to meet the specific needs of your organization and maximize the value of your i2 investments. i2's flexible and customizable products are designed to interface with a wide variety of systems and accommodate immense quantities of disparate data. By utilizing Security Expert Labs, you will receive a design and configuration that aligns to your tactical and strategic needs.

## Our Service Offerings

### Getting Started Services

Take advantage of our team's vast i2 experience to guide and install your i2 intelligence analysis deployment, train your teams and provide a rapid return on investment.

### Optimizing Intelligence Analysis

Our team can help you to further improve the efficiency of your analysts by enhancing and extending the core products to meet your specific needs or integrating i2 software with other IBM products.

### Expanding Intelligence Analysis

Security Expert Labs can provide a design and configuration that aligns to your tactical and strategic needs by expanding your solution to accommodate new data sources and schema elements.

### Consultant on Demand

Get time with a consultant for anything related to i2. Pair with a subject matter expert who understands your workflow to achieve your top goals and provide an implementation that fits your use cases.

## Why Security Expert Labs?

### Flexible Options

We can provide expert coverage for varying project needs including customer specific compliance, deployment reviews, architecture advice and optimization assistance.

### Time to Value

Our team helps customers deploy faster, smarter and with more agility, so that you encounter fewer challenges and achieve product value more quickly.

### Education and Support

In addition to providing hands on help with deployment or product expansion, we can also educate and support your team to help you achieve self-sufficiency.
