GSA Alliant 2

GSA's Alliant 2 GWAC is a multiple-award, indefinite delivery, indefinite-quantity (IDIQ) Governmentwide Acquisition Contract (GWAC) offering complete and flexible IT solutions worldwide. Alliant 2 is a Best-in-Class GWAC that is a preferred governmentwide solution providing best-value IT solutions to federal agencies.

Leading edge technologies

- Offers Artificial Intelligence (AI), Distributed Ledger Technology (DLT), Robotic Process Automation (RPA), and other types of emerging technologies
- Aligned with Federal Enterprise Architecture (FEA) and Department of Defense Enterprise Architecture (DoDEA) to enable contract to carry out new and creative technologies

As a long-standing partner with GSA, IBM is committed to delivering real business and sustained value for its customers and has demonstrated its vast capabilities by receiving the maximum evaluation points (83,100) available on the Alliant 2 contract.

Contract scope includes, but is not limited to:

- Artificial Intelligence
- Agile Development
- Cloud Computing
- Cyber Security
- Integration and Management
- IT Operations and Maintenance
- Network Operations

Highlights

- A full spectrum of contract types, such as fixed price, time-and-materials or labor-hour, cost reimbursement, requirements contract type, with incentive and award features, as applicable
- Highly qualified pool of 51 industry partners
- Access to a full range of comprehensive IT services and IT services-based solutions
- Flexibility within the scope to capitalize on emerging technologies and meet the definition of information technology as it evolves
- Free scope compatibility reviews with responses within 72 hours
- Small business subcontracting credit available at the task order level. The funding agency receives the credit in eSRS.

The Alliant 2 GWAC is a flexible contract that provides for comprehensive solutions designed to improve service and increase efficiency.

Features	Benefits
A \$50 billion dollar program ceiling and a five-year base period with one five-year option	Allows for long-term planning of large-scale program requirements
Scope aligned with the Federal Enterprise Architecture (FEA) and the Department of Defense Enterprise Architecture (DODEA)	Conforms to the Office of Management and Budget (OMB) policy mandates for IT investments and is consistent with the current IT definition at any given time
All contract types, e.g., fixed-price, cost reimbursement, labor-hour and time-and-materials	Offers flexibility of contract types for optimal risk mitigation
Ancillary support permitted when it is integral to and necessary for the IT services-based outcome	Facilitates integrated IT solutions
Access to exceptionally qualified industry partners	Enables innovative solutions from experienced provider
Aggressive subcontracting goals set at 50% of subcontracted dollar	Provides subcontracting opportunities for small businesses
Pre-competeted, easy-to-use contract with streamlined ordering procedures based on FAR 16.505	Saves time and money by reducing procurement lead time
Complimentary scope-compatibility reviews	Promotes contract compliance and reduces risk of adverse audits
Requires fair opportunity under FAR 16.505 Ordering	Supports competition among highly qualified industry partners
No protests on orders \$10 million and under; except on the grounds that the order increases the scope, period of performance, or maximum value of the GWAC	Minimizes protest risk and supports timely order award for optimal mission support

About IBM

IBM Global Business Services (GBS) provides services to clients across the entire federal market. These clients cover areas across defense and intelligence. This includes all four branches of service, the joint commands, and many of the 17 intelligence agencies; as well as the DHS, DOJ, and Foreign Affairs clients such as the TSA, FEMA, and USAID. Additionally, our GBS team serves civilian agency clients such as the IRS, GSA, and the VA. IBM GBS enables mission and mission-support programs whether they operate in the cloud or on the ground. Our teams work at the intersection of outcomes and possibilities, delivering capabilities today that will matter tomorrow.
