

# Expand your z/OS ecosystem with zCX

## Running App Connect Enterprise (ACE) on zCX

Receive z/OS® qualities of service (QoS)

Reduce cost of operation

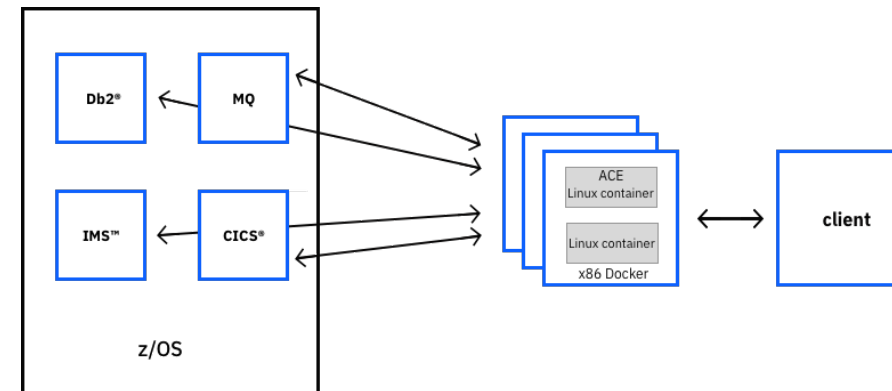

Co-locate ACE and z/OS middleware for efficiency

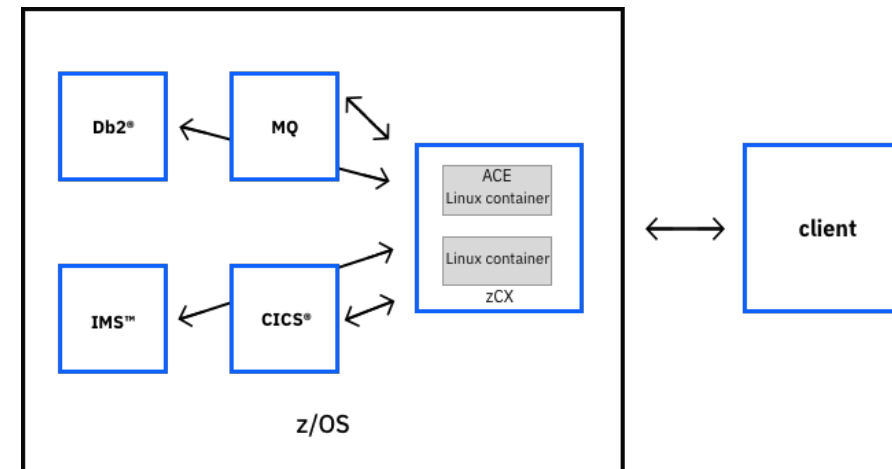

Run and manage your App Connect Enterprise (ACE) integration servers and the related systems of record in zCX. ACE combines the benefits of IBM Integration Bus and IBM App Connect Professional. Alongside cloud native technologies, ACE can support the span of integration needs across a modern digital enterprise.

The zCX container architecture will simplify application connectivity for a flexible and dynamic infrastructure, while maintaining operational control within z/OS and z/OS Qualities of Service.
