

# IBM Power to Cloud Rewards Program

IBM Power to Cloud Rewards Program helps clients plan, design and implement cloud platforms on IBM® Power Systems™ servers and accelerate the transformation of IT infrastructure to private, hybrid and multicloud.

The IBM Power to Cloud Rewards Program enables clients to earn rewards points on purchases of IBM Power Systems servers including the IBM Power® 980 and 950.

IBM Power to Cloud Rewards points can be used for a range of services focused on helping the transition from traditional IT platforms to private and hybrid cloud platforms. Power to Cloud Rewards Program services offerings leverage the proven expertise of IBM Systems Lab Services consultants. This program:

- Helps accelerate the transformation of IT infrastructure to cloud platforms
- Features services to design and implement private and hybrid cloud platforms
- Leverages the proven expertise of IBM Systems Lab Services consultants

---
