

IBM App Connect

What users are saying on G2.

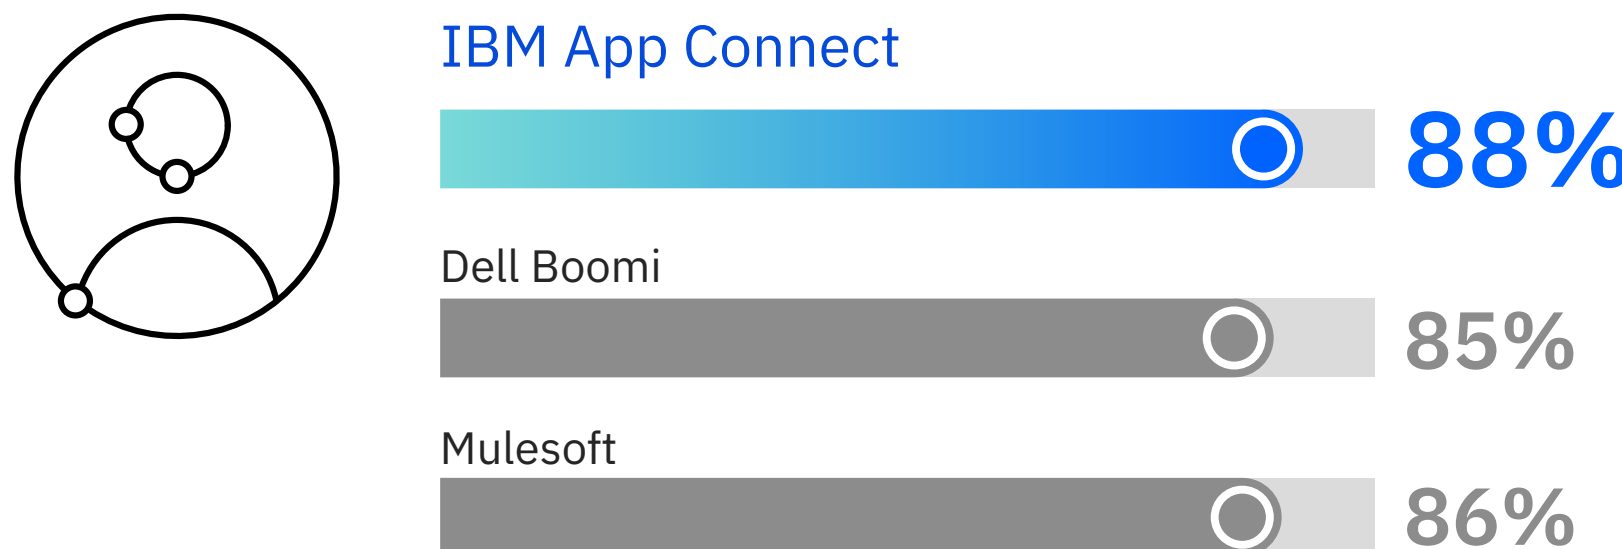

IBM App Connect

Based on G2's 2019 Spring Reports

Review Star Breakdown

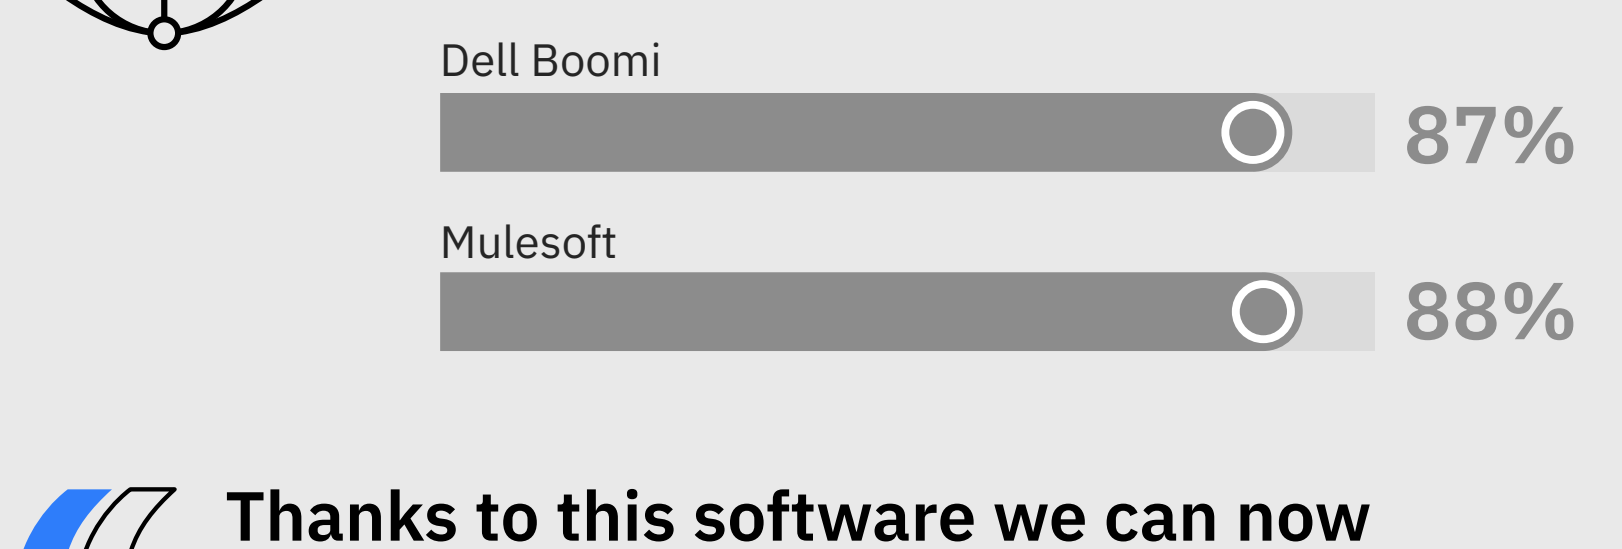

Quality of Support

The customer support is one of the best that I have come across, they listen to you and understand your problem and come up with a solution for your problem.
- G2 Reviewer, 4 Stars

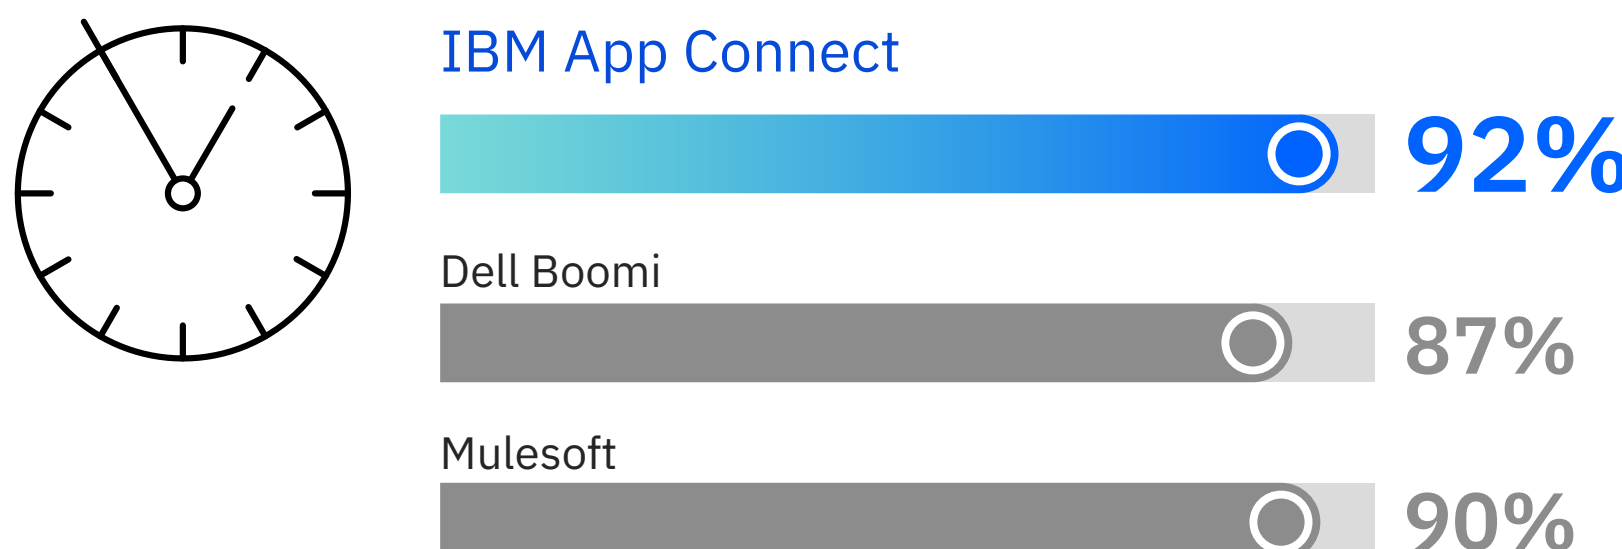

IBM has some of the best customer support.
- G2 Reviewer, 4 ½ Stars

Visual Designer Experience

Thanks to this software we can now integrate our projects in other applications as well as see other designs and share them and others can also see and share our designs if they wish. Through this software we can also connect with other vendors and their databases.
- G2 Reviewer, 4 stars

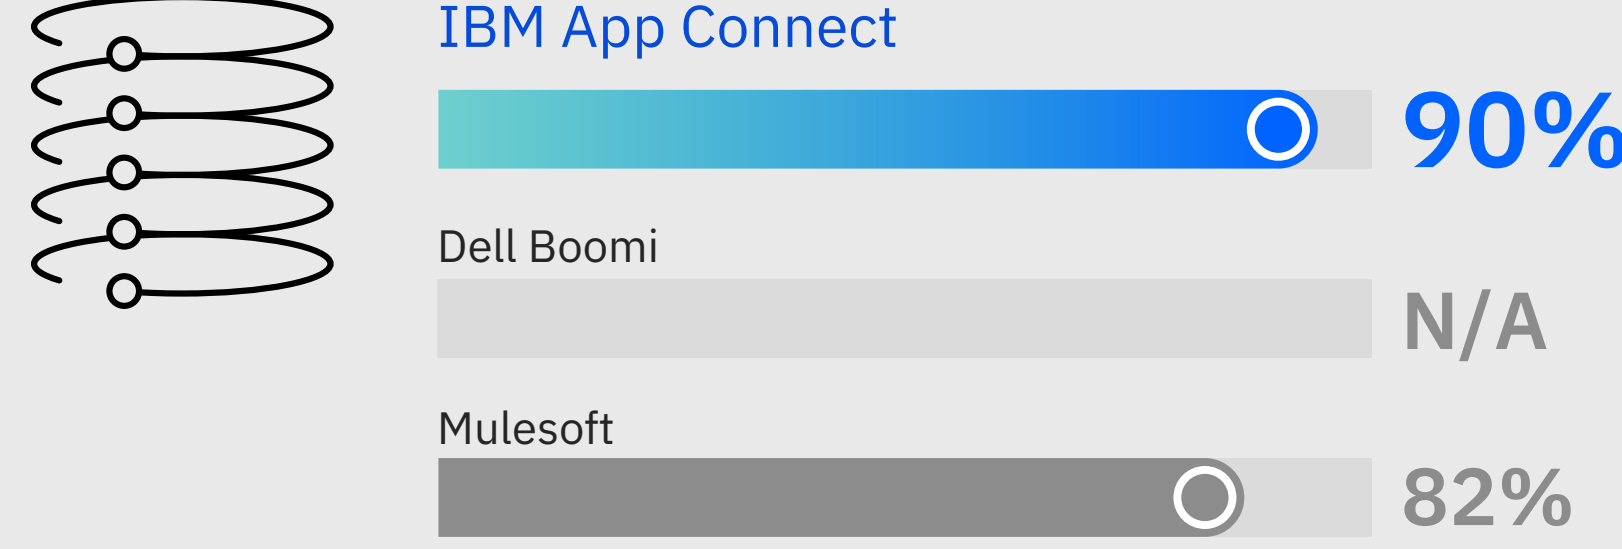

Real-Time Integration

IBM App Connect enables us to perform the integrations with ease thereby increasing the overall productivity. Since we share business APIs with other clients and merged companies it provides an easy integration platform for running and managing APIs in a secure manner.
- G2 Reviewer, 4 ½ stars

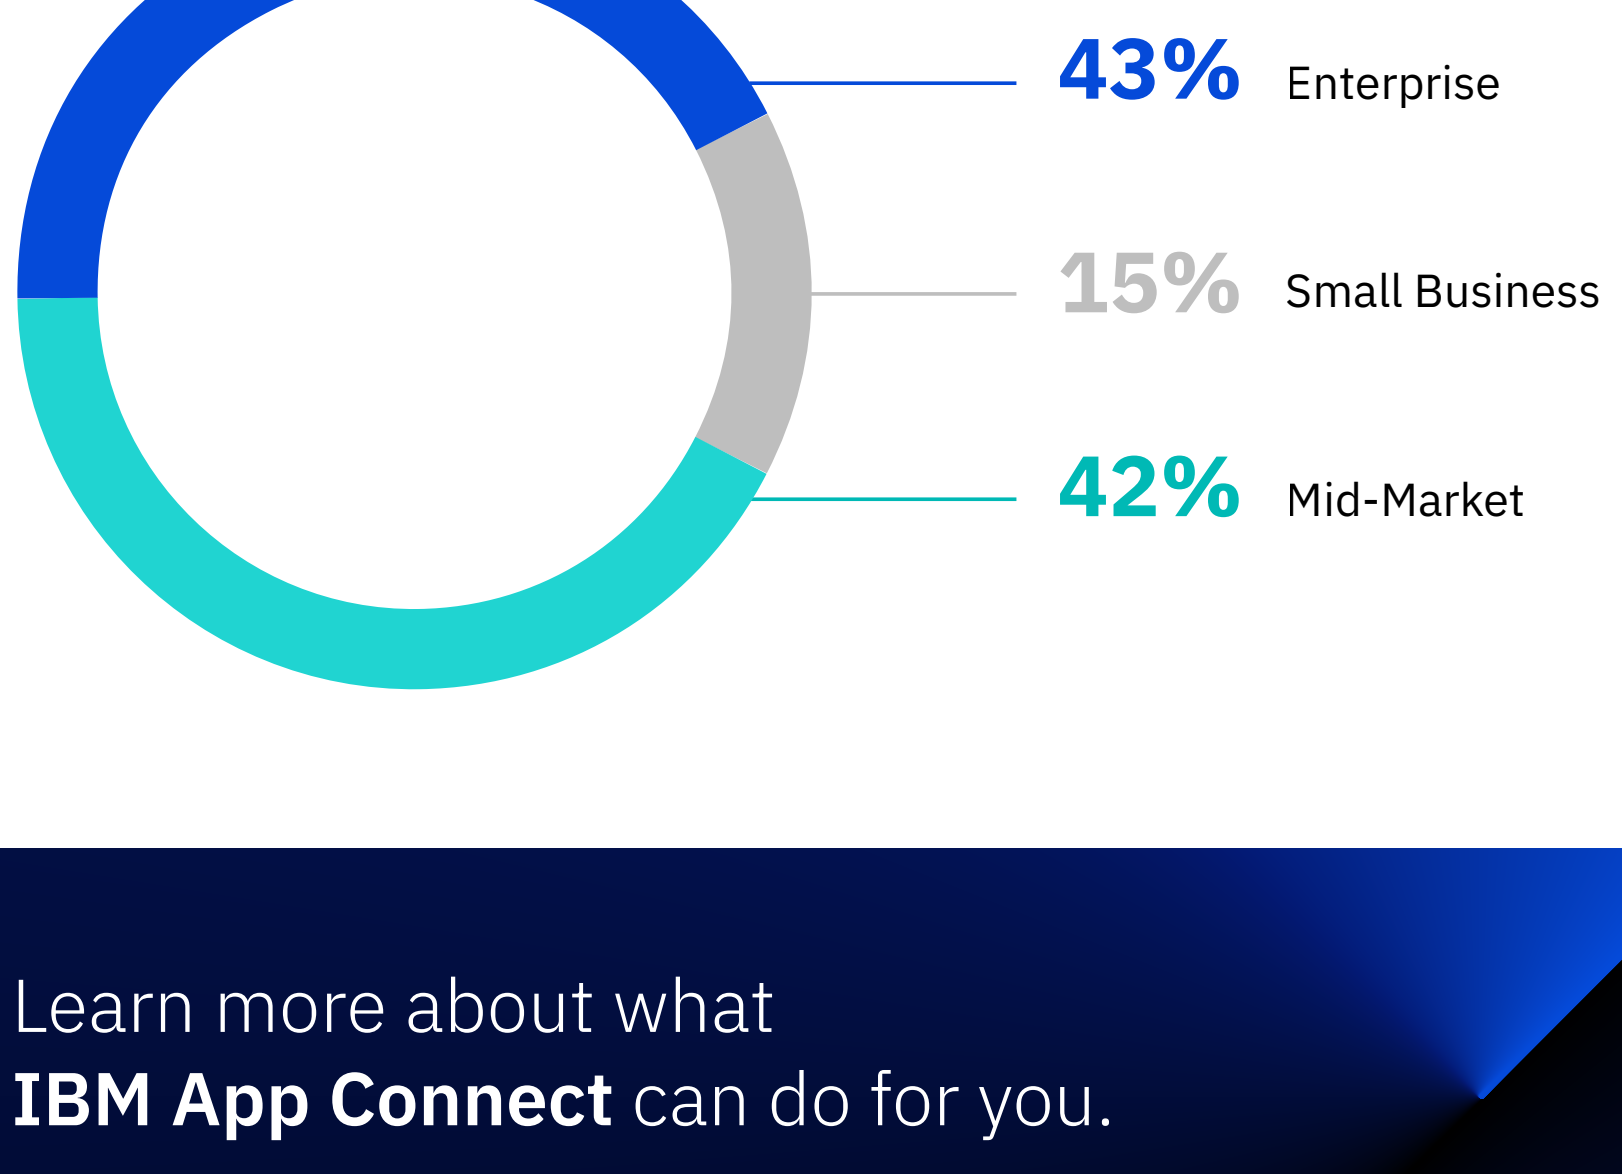

It supports multiple integration styles, across batch and real-time patterns. Also allows users to mix and match capabilities to solve the complex problem.
- G2 Reviewer, 4 ½ stars

Data Virtualization

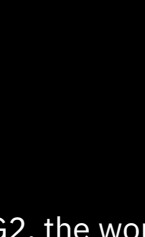

IBM App Connect lets you process the data in realtime and also enables data virtualization simultaneously. It helps us to virtualize all the data sources and create a single virtual environment consisting of all the data sources on which you can apply machine learning and AI algorithms. It is the best way in which you can virtualize data in realtime.
- G2 Reviewer, 5 stars
