

IBM Virtualized Desktop as a Service

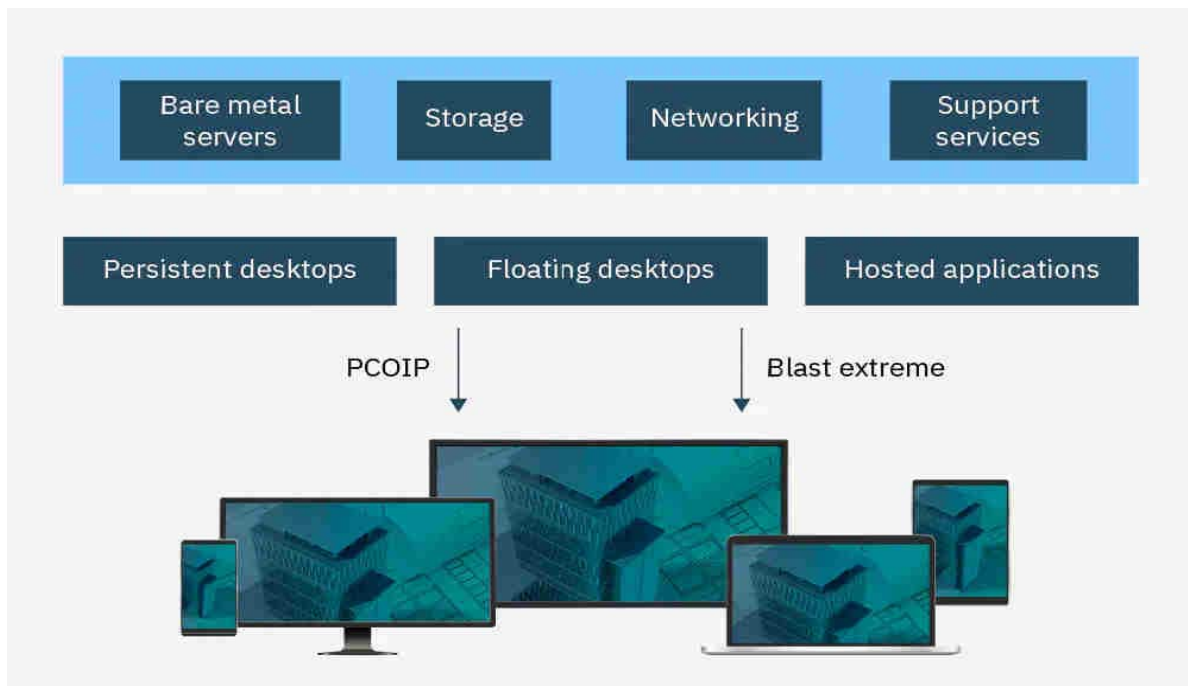

VMware Horizon on IBM Cloud

Focus on your business and let the IBM experts take care of the complex setup and maintenance of your virtual desktop infrastructure (VDI) and applications based on your needs, even for graphic-intensive applications. Your end users receive secure, anytime, anywhere access to their digital workspaces on any device with confidence. It's the VDI solution that just works.

VMware Horizon on IBM Cloud is a fully managed Desktop-as-a-Service solution that delivers feature-rich virtual desktops and applications. The service supports a cloudscaled architecture that makes it easy to deliver virtualized Windows desktops and applications to any device, anytime. And, with flexible subscription model and turnkey solutions, organizations can easily get up and running and scale quickly.
