## Overview

The IBM Sterling<sup>(R)</sup> Transformation Extender portfolio empowers organizations to transform and validate data, and helps to ensure compliance with data standards. It is specifically designed for high-volume, complex transformation and validation of data across a range of different formats and standards.

With the Sterling<sup>TM</sup> Transformation Extender portfolio, organizations can automate, accelerate, and scale processes to help reduce complexity and related costs. It includes advanced support for metadata mapping, validation, governance, and compliance for specific industries, including finance, healthcare, and supply chain.

### Sterling Transformation Extender 10.1.1

- Improvements to Design Server:
  - Includes easier to use AutoMapper in Design Server that calculates the best field-level mappings and presents these to the user for confirmation. Automation of field-level mapping significantly accelerates map development by eliminating many manual steps.
  - Integrates IBM Sterling B2B Integrator with Sterling Transformation Extender, eliminating the requirement to deploy a separate Sterling B2B Integrator server to test and run Sterling Transformation Extender maps.
  - Adds Flow Server nodes (Cache Read, Cache Write, JSON Read, JSON Transform, Source, Target, Request) that improve map and data orchestration for better visibility into complex flows, as well as easier long-term maintenance of flows and maps.
  - Adds Where Used function for identifying where a map is used within a series of flows or functional maps, improving map maintenance and updates.
- Enhancements for cloud integration include new and updated resource adapters for cloud data sources:
  - New Google Cloud Storage adapter provides access to Google Cloud Storage buckets and objects in the Google Cloud Platform.
  - New Google Cloud Storage Pub/Sub adapter provides access to Google Cloud Pub/Sub topics and subscriptions in the Google Cloud Platform.

- Updates to Amazon S3 adapter add support for reading of storage buckets, wildcard searches across storage buckets, and end-point connection to S3 compatible buckets.
- Updates to Microsoft™ Azure Service Bus adapter add support for Pub/Sub mode to enable data transfer between decoupled applications

## **IBM Sterling Transformation Extender Pack products**

Sterling Transformation Extender supports industry standards for document processing by using packs that target specific industry data standards. The following packs are updated for use with Sterling Transformation Extender 10.1.1.

### **IBM Sterling Transformation Extender Pack for Healthcare 10.2**

Sterling Transformation Extender, with Sterling Transformation Extender Pack for Healthcare, provides healthcare and insurance payer organizations with an infrastructure that can help enable compliance with government and industry standards that include HIPAA, HL7, and NCPDP components.

New features include support for new transactions:

- HIPAA-standard EDI 277 transaction, Claim Status Response, as defined in ASC X12 version 5010, TR3 ID: 005010X364. Support for EDI 277 is required by the New York State Department of Health All Payer Database.
- Medicare Interoperability and No Surprise Act, EDI-related transaction updates:
  - HIPAA-standard EDI 278I, Prior Authorization and Notification Inquiry, as defined in ASC X12 version 5010, TR3 ID: 005010X215
  - Support for ASC X12 version 6020 clinical attachment standards for EDI transactions
- Improvements to HIPAA compliance checker for WEDI SNIP message validation types 5 through 7
  - National Provider Identifier (NPI) number validation
  - Process validation provides appropriate error message on failure
- Flow validation in Design Server for HL7 Fast Health Interoperability Resources (FHIR) specification
- Example for EDI 834 transaction, Plan Member Reporting, as defined in ASC X12 version 5010, TRE ID: 005010X318

### **IBM Sterling Transformation Extender Pack for Supply Chain EDI 10.2**

Sterling Transformation Extender, with Sterling Transformation Extender Pack for Supply Chain EDI, provides comprehensive transformation support, including metadata, compliance checking, and related processing functions for key supply chain standards that include X12 and EDIFACT.

New features include support for new transactions:

- New Rail Industry Guidelines standards implementation and compliance check for ASC X12
- New 8020 base version of the X12 transaction sets
- New EDIFACT EDI base versions: D20A, D20B
- New examples for Blockchain (read and write); Hierarchical Loop 856 and 857, Advanced Ship Notification; EDIFACT security; and EDIFACT package

### **IBM Sterling Transformation Extender Pack for SAP Applications 10.2**

Sterling Transformation Extender, Sterling with Transformation Extender Pack for SAP Applications, is a unique data transformation technology for interfacing SAP R/3 software applications with third-party applications and legacy systems, including examples for PEPOL and SAP HANA.

New features:

- SAP S/4 HANA adapter to read/write data from SAP HANA databases
- SAP S/4 HANA online example

## **IBM Sterling Transformation Extender Pack for Financial Payments Plus 10.2**

Sterling Transformation Extender, with Sterling Transformation Extender Pack for Financial Payments 10.2, provides robust transformation support, including metadata, compliance checking, and related processing functions for key financial payments standards such as NACHA, SEPA, and SWIFT.

The new Sterling Transformation Extender Pack for Financial Payments Plus 10.2 provides robust transformation support that includes metadata, compliance checking, and related processing functions for the following ISO 20022 features:

- SWIFT MX extended validation support for cross-border payments in ISO 20022 with Cross Border Payments & Reporting+ (CBPR+) with support for the following:
  - Message validation
  - SWIFT MT to SWIFT MX and SWIFT MX to SWIFT MT message translation maps
- Eurosystem TARGET2 interbank Realtime Gross Settlement (RTGS) payments messages
- Eurosystem TARGET2 collateral liquidity management features
- European Banking Association (EBA) EURO1 STEP 1 payment system messages
- Bank of England Clearing House Automated Payment System (CHAPS) payment system, like-for-like ISO 20022 messages

---

### **Key requirements**

Sterling Transformation Extender 10.1.1 works with the following Sterling Transformation Extender Pack products:

- Sterling Transformation Extender Pack for Healthcare 10.2
- Sterling Transformation Extender Pack for Supply Chain EDI 10.2
- Sterling Transformation Extender Pack for Financial Payments 10.2
- Sterling Transformation Extender Pack for Financial Payments Plus 10.2
- Sterling Transformation Extender Pack for SAP Applications 10.2

For information about hardware and software requirements, see [Technical information](#).

---

### **Planned availability date**

- November 12, 2021: IBM Sterling Transformation Extender 10.1.1
- November 19, 2021: IBM Sterling Transformation Extender Pack for Healthcare 10.2
- November 19, 2021: IBM Sterling Transformation Extender Pack for Supply Chain EDI 10.2
- November 19, 2021: IBM Sterling Transformation Extender Pack for SAP Applications 10.2
- December 17, 2021: IBM Sterling Transformation Extender Pack for Financial Payments Plus 10.2

Availability within a country is subject to local legal requirements.

---

### **Description**

---

For more information about Sterling Transformation Extender, see the following resources:

- [IBM Sterling Transformation Extender](#) website
- [IBM Sterling Transformation Extender](#) solution brief
- [IBM Sterling Transformation Extender Pack for Healthcare](#)

### **Accessibility by people with disabilities**

---

Accessibility Compliance Reports (previously known as a VPAT) containing details on accessibility compliance to standards, including the Worldwide Consortium Web Content Accessibility Guidelines, European Standard EN 301 349, and US Section 508, can be found on the [IBM<sup>®</sup> Accessibility Conformance Report Request](#) website.

---

## **Product positioning**

---

Sterling Transformation Extender belongs to the Sterling B2B collaboration solutions portfolio, part of IBM Sterling Supply Chain. In the global digital economy, B2B collaboration solutions enable secure, compliant, and assured delivery of files and documents across your organization's expanding ecosystem of partners, suppliers, and customers. Sterling Transformation Extender is a powerful, transaction-oriented, data integration solution that automates the transformation of high-volume, complex transactions.

## Services

---

### **IBM Systems Lab Services**

Systems Lab Services offers infrastructure services to help build hybrid cloud and enterprise IT solutions. From servers to storage systems and software, Lab Services can help deploy the building blocks of a next-generation IT infrastructure to empower a client's business. Lab Services consultants can perform infrastructure services for clients online or onsite, offering deep technical expertise, valuable tools, and successful methodologies. Lab Services are designed to help clients solve business challenges, gain new skills, and apply best practices.

Lab Services offers a wide range of infrastructure services for IBM Power<sup>(R)</sup> servers, IBM Storage systems, IBM Z<sup>(R)</sup>, and IBM LinuxONE. Lab Services has a global presence and can deploy experienced consultants online or onsite around the world.

For assistance, contact Systems Lab Services at [ibmsls@us.ibm.com](mailto:ibmsls@us.ibm.com).

To learn more, see the [IBM Systems Lab Services](#) website.

### **IBM Consulting**

As transformation continues across every industry, businesses need a single partner to map their enterprise-wide business strategy and technology infrastructure. IBM Consulting is the business acceleration partner to help cocreate change across an organization. IBM specialists can help businesses succeed through finding collaborative ways of working that forge connections across people, technologies, and partner ecosystems. IBM Consulting brings together the business expertise and an ecosystem of technologies that help solve some of the biggest problems faced by organizations. With methods that get results faster, an integrated approach, that is grounded in an open and flexible hybrid cloud architecture, and incorporating technology from IBM Research<sup>(R)</sup> and IBM Watson<sup>(R)</sup> AI, IBM Consulting enables businesses to lead change with confidence and deliver continuous improvement across a business and its bottom line.

For additional information, see the [IBM Consulting](#) website.

### **IBM Technology Support Services (TSS)**

Get preventive maintenance, onsite and remote support and gain actionable insights into critical business applications and IT systems. Speed developer innovation with end-to-end support for over 240 open-source packages. Leverage powerful IBM analytics and AI-enabled tools to enable client teams to manage IT problems before they become emergencies.

TSS offers extensive IT maintenance and support services that cover more than one niche of a client's environment. TSS covers products from IBM and other OEMs, including servers, storage, network, appliances, and software to help clients ensure high availability across their data center and hybrid cloud environment.

For details on available services, see the [Technology support for hybrid cloud environments](#) website.

### **IBM TechU**

Improve your knowledge in hybrid cloud and AI solutions. TechU provides the most recent content so that you can learn, engage, and increase your skills with IBM Technology specialists.

A one-year, renewable membership TechU digital membership provides access to IBM Systems online education to help address your technical enablement needs for existing and new projects.

Submit questions or comments to [techuid@us.ibm.com](mailto:techuid@us.ibm.com).

For additional details, see the [IBM TechU](#) website.

### **IBM Expert Labs**

Expert Labs can help clients accelerate their projects and optimize value by leveraging their deep technical skills and knowledge. With more than 20 years of industry experience, these specialists know how to overcome the biggest challenges to deliver business results that can have an immediate impact.

Expert Labs deep alignment with IBM product development allows for a strategic advantage as they are often the first in line to get access to new products, features, and early visibility into roadmaps. This connection with the development enables them to deliver First of a Kind (FOAK) implementations to address unique needs or expand a client's business with a flexible approach that works best for their organization.

For additional information, see the [IBM Expert Labs](#) website.

### **IBM Security™ Expert Labs**

With extensive consultative expertise on IBM Security software solutions, Security Expert Labs helps clients and partners modernize the security of their applications, data, and workforce. With an extensive portfolio of consulting and learning services, Expert Labs provides project-based and premier support service subscriptions.

These services can help clients deploy and integrate IBM Security software, extend their team resources, and help guide and accelerate successful hybrid cloud solutions including critical strategies such as zero trust. Remote and on-premises software deployment assistance is available for IBM Cloud Pak<sup>(R)</sup> for Security, IBM Security QRadar<sup>(R)</sup>/QRoC, IBM Security SOAR/Resilient<sup>(R)</sup>, IBM i2<sup>(R)</sup>, IBM Security Verify, IBM Security Guardium<sup>(R)</sup>, and IBM Security MaaS360<sup>(R)</sup>.

For more information, contact Security Expert Labs at [sel@us.ibm.com](mailto:sel@us.ibm.com).

For additional information, see the [IBM Security Expert Labs](#) website.

### **Additional services**

---

IBM Software Services is dedicated to helping organizations meet their business needs, whether they are implementing a new customer engagement solution, updating an existing solution, or simply need analysis guidance or assistance. For information and assistance, see [IBM Services<sup>\(R\)</sup>](#) website.

## **Software requirements**

For the most current software requirements, see [Software Product Compatibility Reports](#) website and select Detailed system requirements. Search for Sterling Transformation Extender.

## **Companion products**

Sterling Transformation Extender can be integrated with the following products to provide additional value from the broader Sterling B2B Collaboration portfolio. For details, see [B2B collaboration solutions](#) website.

- IBM Sterling File Gateway
- Sterling B2B Integrator
- IBM Sterling Connect:Direct<sup>(R)</sup>
- IBM Sterling Control Center
- Sterling Transformation Extender Pack for Healthcare
- Sterling Transformation Extender Pack for Supply Chain EDI
- Sterling Transformation Extender Pack for Financial Payments
- Sterling Transformation Extender Pack for Financial Payments Plus
- Sterling Transformation Extender Pack for SAP Applications

## **IBM Support**

[IBM Support](#) is your gateway to technical support tools and resources that are designed to help you save time and simplify support. IBM Support can help you find answers to questions, download fixes, troubleshoot, submit and track problem cases, and build skills. Learn and stay informed about the transformation of IBM Support, including new tools, new processes, and new capabilities, by going to the [IBM Support Insider](#).

## **Additional IBM support**

### **IBM Garage™**

IBM Garage is a framework for accelerating digital transformation. It helps you generate innovative ideas and equips you with the practices, technologies, and expertise to turn those ideas into business value in weeks. When you work with IBM Garage you bring pain points into focus. You empower your team to take manageable risks, adopt leading technologies, speed up solution development, and measure the value of everything you do. IBM Garage has experts and services to address a broad array of use cases, including capabilities for business transformation, hybrid cloud, analytics and AI, infrastructure systems, security, and more. For more information, see the [IBM Garage](#) website.

## **Planning information**

---

### **Packaging**

These offerings are accessed through the internet as an electronic download. There is no physical media or electronic deliverable.

### **Security, auditability, and control**

---

Sterling Transformation Extender products use the security and auditability features of the host operating system.

The client is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

---

## Ordering information

---

For ordering information, consult your IBM representative or IBM Business Partner, or go to the [Passport Advantage<sup>\(R\)</sup>](#) website.

This program is available only through Passport Advantage.

These products may only be sold directly by IBM or by IBM Business Partners.

To locate IBM Business Partners in your geography, see the [Find a Business Partner](#) page.

Select your language of choice and scroll down to the Charge Metrics section. Follow-on releases, if any, may have updated terms. See the [License Information documents](#) website for more information.

---

## **Terms and conditions**

---

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage<sup>(R)</sup> Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

This product is available only through Passport Advantage.

### **Licensing**

---

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage<sup>(R)</sup>, where applicable, are license only and do not include Software Maintenance.

### **Software Maintenance**

---

Licenses under the IBM International Program License Agreement (IPLA) provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available. Two charges apply: a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

### License Information number

### Limited warranty applies

Yes

## **Limited warranty**

---

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, see the [IBM Support Guide](#).

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

## **Program technical support**

---

### **Standard support**

Technical support of a program product version or release will be available for a minimum of three years from the planned availability date, as long as your Software Subscription and Support is in effect.

This technical support allows you to obtain assistance (by telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, through an announcement letter, of discontinuance of support with 12 months' notice.

If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

For additional information on the IBM Software Support Lifecycle Policies, see the [Standard and enhanced IBM software support lifecycle policies](#) website.

## **Money-back guarantee**

---

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

## **Volume orders (IVO)**

---

No

## **Passport Advantage applies**

---

Yes. Information is available on the [Passport Advantage and Passport Advantage Express](#) website.

## **Software Subscription and Support applies**

---

Yes. Software Subscription and Support, also referred to as Software Maintenance, is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance by telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, see the [IBM Support Guide](#). Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

Unless specified otherwise in a written agreement with you, IBM does not provide support for third-party products that were not provided by IBM. Ensure that when contacting IBM for covered support, you follow problem determination and other instructions that IBM provides, including in the [IBM Support Guide](#).

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, go to the [Passport Advantage and Passport Advantage Express](#) website.

**Variable charges apply**

---

No

---

**Educational allowance available**

---

Not applicable

---

**Statement of good security practices**

---

IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

**Important:** IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

---

**Prices**

---

The prices are unchanged by this announcement.

## **IBM Global Financing**

---

IBM Global Financing offers competitive financing to credit-qualified clients to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all client segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or go to the [IBM Global Financing](#) website for more information.

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government clients. Rates are based on a client's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.
