At a glance

Cloudera Data Platform Private Cloud Base with IBM^(R) delivers:

- Enhanced security and stability of Cloudera Data Platform Private Cloud Base with Service Pack 1 (SP1)
- Faster time to value with containerized data services and efficient hardware utilization
- Capability to leverage GPU-accelerated Apache Spark 3.0 to help remove bottlenecks and improve time to insight for data-driven enterprises
- Improved on-premises data storage performance with Apache Ozone object storage

Overview

Cloudera Data Platform Private Cloud with IBM delivers powerful analytic, transactional, and machine learning workloads in a hybrid data platform, combining the agility and flexibility of public cloud with the control of the data center. With a choice of traditional and elastic analytics and scalable object storage, Cloudera Data Platform Private Cloud with IBM enables organizations to transform traditional monolithic cluster deployments into modern, more efficient platforms.

Cloudera Data Platform Private Cloud Base with IBM 7.1.7, Service Pack 1, is designated a Long Term Supported (LTS) release. A Service Pack (SP) is for clients who value a stable platform, service many users or use cases, and want low-risk, low-cost maintenance and operations.

Cloudera with IBM offerings generally have a three-year support period. This LTS release provides a stable version of the platform to be supported for four years from the initial release of Cloudera Data Platform Private Cloud Base with IBM 7.1.7 until August 2025. Periodic, cumulative hot fixes will be released to address any vulnerabilities or fixes to ensure this version remains secure. There will be no major changes or new features that require significant testing. This enables clients with complex cluster implementations or workloads that support critical business operations that need extensive testing to upgrade to a version of CDP Private Cloud Base that will remain stable, longer. Clients on LTS need only upgrade when the next LTS version is released.

Clients looking to utilize the latest feature set and innovations that Cloudera releases on Cloudera Data Platform should consider upgrading to the regular Feature Release

cycle. Feature Releases are released more frequently and are typically supported for 18 months.

Cloudera Data Platform Private Cloud Base with IBM key features:

- Is deployed in traditional co-located workloads in a familiar cluster form factor, leveraging the latest open source analytics
- Offers a choice of data store options, including Hadoop Distributed File System (HDFS), Ozone, and third-party object storage, to help meet changing performance and scalability demands
- Provides security and governance with Cloudera Shared Data Experience (SDX), helping to enable safe and compliant data lakes with policy-based data access for more users
- Has direct in-place upgrade for Cloudera Distributed Hadoop (CDH) and Hortonworks Data Platform (HDP) deployments, which can yield improvements in speed, efficiency, and security

With Cloudera Data Platform Private Cloud, organizations can benefit from:

- Rapid time to value through simplified provisioning of easy-to-use, self-service analytics in minutes rather than days, to help enable rapid onboarding of new use cases
- Optimized resource utilization and the decoupling of compute and storage, which can help to lower data center infrastructure costs
- Workload isolation and multi-tenancy management to help reduce the impact of spikes on critical workloads and missed SLAs and SLOs

Cloudera Data Platform Private Cloud Base with IBM 7.1.7 Service Pack 1 contains all hot fixes from previously released cumulative hot fixes, additional CVE, security updates, critical bug fixes, and minor certifications. The full list of updates in Service Pack 1 includes:

- 45 CVE and security fixes
- Critical bug fixes
- Consolidation of all hot fixes
- CVE fixes for Log4v2.x, Log4J v1 remediation
- A new document errata
- HSM partner certifications
 - Support for Thales HSM CipherTrust Manager 2.0
 - Support for GCP Cloud HSM
 - Support for the RSA/None/OAEPWithSHA512AndMGF1Padding CryptoAlgorithm as the encryptionAlgorithm of the LunaSAProvider
- OS and DB certifications
 - Support for PostgreSQL 14
 - Support for Maria DB 10.5

Cloudera Distributed Hadoop and Hortonworks Data Platform clients should upgrade to CDP Private Cloud Base for improved enterprise data management capabilities, new platform innovations, and with this LTS release, a stable version with extended support.

Cloudera Data Platform Private Cloud Base is offered as a defined capacity virtual server with 16 VPCs, 128 GB RAM, and up to 48 TB of storage. Variable charges apply when exceeding defined capacity.

For more information, see the [Cloudera Runtime component versions](#) web page.

Cloudera Data Platform Private Cloud Data Services with IBM 1.3.4 is an add-on offering for Cloudera Data Platform Data Private Cloud Base with IBM that offers

containerized, cloud-native data services for data warehousing, machine learning, and data engineering.

Cloudera Data Platform Private Cloud Data Services has a per VPC metric.

Cloudera Data Platform Private Cloud -- GPU Add-on with IBM:

- Is powered by Cloudera Data Platform with NVIDIA RAPIDS and AI
- Offers a potential 3x-10x performance improvement for ETL and SQL-heavy data analytics compared to CPU-based architecture
- Helps speed up machine learning pipelines with popular RAPIDS libraries natively integrated and managed in CDP
- Helps accelerate data analytics on critical applications like Spark 3.0 without any code changes
- Offers a GPGPU metric.

Cloudera Data Platform HDFS Storage with IBM 7.1.7 SP1 provides the benefits of traditional HDFS storage.

This chargeable component has a per TB metric and is applicable to virtual servers that exceed the defined capacity of 48 TB.

Cloudera Data Platform Private Cloud Ozone or Third Party Storage with IBM 7.1.7 SP1:

- Is designed for big data workloads
- Requires no code change for Apache Spark, Apache Hive, and Apache Hadoop YARN by using ObjectFrontier Software (OFS) protocol
- Provides the benefits of traditional HDFS and S3 Object Storage
- Can scale capacity to hundreds of petabytes, thousands of nodes, and billions of objects
- Can help reduce storage cost by using commodity hardware
- Has a per TB metric and is applicable to virtual servers that exceed the defined capacity of 48 TB

Key requirements

For details, see the [Software requirements](#) section.

Planned availability date

August 16, 2022

Availability within a country is subject to local legal requirements.

Accessibility by people with disabilities

Accessibility Compliance Reports (previously known as a VPAT) containing details on accessibility compliance to standards, including the Worldwide Consortium Web Content Accessibility Guidelines, European Standard EN 301 349, and US Section 508, can be found on the [IBM Accessibility Conformance Reports](#) website.

Reference information

Services

IBM Systems Lab Services

Systems Lab Services offers infrastructure services to help build hybrid cloud and enterprise IT solutions. From servers to storage systems and software, Systems Lab Services can help deploy the building blocks of a next-generation IT infrastructure to empower a client's business. Systems Lab Services consultants can perform infrastructure services for clients online or onsite, offering deep technical expertise, valuable tools, and successful methodologies. Systems Lab Services is designed to help clients solve business challenges, gain new skills, and apply best practices.

Systems Lab Services offers a wide range of infrastructure services for IBM Power^(R) servers, IBM Storage systems, IBM Z^(R), and IBM LinuxONE. Systems Lab Services has a global presence and can deploy experienced consultants online or onsite around the world.

For assistance, contact Systems Lab Services at ibmsls@us.ibm.com.

To learn more, see the [IBM Systems Lab Services](#) website.

IBM ConsultingTM

As transformation continues across every industry, businesses need a single partner to map their enterprise-wide business strategy and technology infrastructure. IBM Consulting is the business partner to help accelerate change across an organization. IBM specialists can help businesses succeed through finding collaborative ways of working that forge connections across people, technologies, and partner ecosystems. IBM Consulting brings together the business expertise and an ecosystem of technologies that help solve some of the biggest problems faced by organizations. With methods that get results faster, an integrated approach that is grounded in an open and flexible hybrid cloud architecture, and incorporating technology from IBM Research^(R) and IBM Watson^(R) AI, IBM Consulting enables businesses to lead change with confidence and deliver continuous improvement across a business and its bottom line.

For additional information, see the [IBM Consulting](#) website.

IBM Technology Support Services (TSS)

Get preventive maintenance, onsite and remote support, and gain actionable insights into critical business applications and IT systems. Speed developer innovation with support for over 240 open-source packages. Leverage powerful IBM analytics and AI-enabled tools to enable client teams to manage IT problems before they become emergencies.

TSS offers extensive IT maintenance and support services that cover more than one niche of a client's environment. TSS covers products from IBM and OEMs, including servers, storage, network, appliances, and software, to help clients ensure high availability across their data center and hybrid cloud environment.

For details on available services, see the [Technology support for hybrid cloud environments](#) website.

IBM Expert Labs

Expert Labs can help clients accelerate their projects and optimize value by leveraging their deep technical skills and knowledge. With more than 20 years of industry experience, these specialists know how to overcome the biggest challenges to deliver business results that can have an immediate impact.

Expert Labs' deep alignment with IBM product development allows for a strategic advantage as they are often the first in line to get access to new products, features, and early visibility into roadmaps. This connection with the development enables them to deliver First of a Kind implementations to address unique needs or expand a client's business with a flexible approach that works best for their organization.

For additional information, see the [IBM Expert Labs](#) website.

IBM Security^(R) Expert Labs

With extensive consultative expertise on IBM Security software solutions, Security Expert Labs helps clients and partners modernize the security of their applications, data, and workforce. With an extensive portfolio of consulting and learning services, Expert Labs provides project-based and premier support service subscriptions.

These services can help clients deploy and integrate IBM Security software, extend their team resources, and help guide and accelerate successful hybrid cloud solutions, including critical strategies such as zero trust. Remote and on-premises software deployment assistance is available for IBM Cloud Pak^(R) for Security, IBM Security QRadar^(R)/QRoC, IBM Security SOAR/Resilient^(R), IBM i2, IBM Security Verify, IBM Security Guardium^(R), and IBM Security MaaS360^(R).

For more information, contact Security Expert Labs at sel@us.ibm.com.

For additional information, see the [IBM Security Expert Labs](#) website.

IBM Support

[IBM Support](#) is your gateway to technical support tools and resources that are designed to help you save time and simplify support. IBM Support can help you find answers to questions, download fixes, troubleshoot, submit and track problem cases, and build skills. Learn and stay informed about the transformation of IBM Support, including new tools, new processes, and new capabilities, by going to the [IBM Support Insider](#).

Additional IBM support

IBM Client Engineering for Systems

Client Engineering for Systems is a framework for accelerating digital transformation. It helps you generate innovative ideas and equips you with the practices, technologies, and expertise to turn those ideas into business value in weeks. When you work with Client Engineering for Systems, you bring pain points into focus. You empower your team to take manageable risks, adopt leading technologies, speed up solution development, and measure the value of everything you do. Client Engineering for Systems has experts and services to address a broad array of use cases, including capabilities for business transformation, hybrid cloud, analytics and AI, infrastructure systems, security, and more. Contact Client Engineering for Systems at sysgarage@ibm.com.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

This product is available only through Passport Advantage.

Licensing

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

Software Maintenance

Licenses under the IBM International Program License Agreement (IPLA) provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available. Two charges apply: a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

License Information number

Program number	License Information document title	License Information document number

5737-N18	Cloudera Data Platform Private Cloud Base EDH with IBM	L-EWLE-CEKP9D
5900-ASL	Cloudera Data Platform PvC Data Services w IBM	L-EWLE-C8TV25

Follow-on releases, if any, may have updated terms. See the [License Information documents](#) website for more information.

Limited warranty applies

Yes

Limited warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information about known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, see the [IBM Support Guide](#).

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program support

Subscription and Support includes telephone assistance, as well as access to updates, releases, and versions of the program as long as support is in effect. You will be notified of discontinuance of support with 12 months' notice.

Money-back guarantee

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Volume orders (IVO)

No

Passport Advantage applies

Yes, information is available on the [Passport Advantage and Passport Advantage Express](#) website.

Software Subscription and Support applies

Yes. Software Subscription and Support, also referred to as Software Maintenance, is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance by telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, see the [IBM Support Guide](#). Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

Unless specified otherwise in a written agreement with you, IBM does not provide support for third-party products that were not provided by IBM. Ensure that when contacting IBM for covered support, you follow problem determination and other instructions that IBM provides, including in the [IBM Support Guide](#).

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, go to the [Passport Advantage and Passport Advantage Express](#) website.

Variable charges apply

No

Educational allowance available

Not applicable.

Statement of good security practices

IT system security involves protecting systems and information through intrusion prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a regulatory compliant, comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective.

Important: IBM does not warrant that any systems, products, or services are immune from, or will make your enterprise immune from, the malicious or illegal conduct of any party.

Prices

For all local charges, contact your local IBM representative or IBM Business Partner.

Business Partner information

If you are an IBM Business Partner acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBMid and password are required to access the [IBM Passport Advantage](#) or [IBM PartnerWorld^{\(R\)}](#) website.

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative. Additional information is also available on the [Passport Advantage and Passport Advantage Express](#) website.

IBM Global Financing

IBM Global Financing offers competitive financing to credit-qualified clients to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, from both IBM and other manufacturers or vendors. Offerings (for all client segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or go to the [IBM Global Financing](#) website for more information.

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government clients. Rates are based on a client's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Trademarks

IBM Consulting is a trademark of IBM Corporation in the United States, other countries, or both.

IBM, Passport Advantage, Power, IBM Z, IBM Research, IBM Watson, IBM Security, IBM Cloud Pak, QRadar, Resilient, Guardium, MaaS360 and PartnerWorld are registered trademarks of IBM Corporation in the United States, other countries, or both.

Other company, product, and service names may be trademarks or service marks of others.

Terms of use

IBM products and services which are announced and available in your country can be ordered under the applicable standard agreements, terms, conditions, and prices in effect at the time. IBM reserves the right to modify or withdraw this announcement at any time without notice. This announcement is provided for your information only. Additional terms of use are located at
