

IBM Garage for Systems Discovery Workshop

Participate in a discovery workshop

Join our no-cost virtual working session. We'll tackle your unique IT challenges and develop the best possible hybrid cloud infrastructure and implementation plan for your organization.

Benefits of attending Systems Discovery Workshop

- 1 Explore your modernization options with hybrid cloud solutions from IBM.
- 2 Map your modernization needs to the costs and benefits of each solution.
- 3 Determine your organization's next steps in the modernization journey.

Methodology

Enterprise Design Thinking

Some examples of use cases covered are

SAP HANA® migration, hybrid cloud deployment of AIX® and IBM i applications, application modernization with Red Hat® OpenShift®, and Oracle® consolidation.

Frito-Lay + IBM

Empowering employees and delighting customers
