

Highlights

- Help reduce costs with lower power consumption, consolidation and space reduction
 - Support media partitioning on Linear Tape-Open (LTO) Ultrium 5 media
 - Simplify data management with IBM® Spectrum Archive™ utilizing IBM Linear Tape File System™ (LTFS) technology
 - Address backup and archiving requirements with lower cost implementation
-

IBM TS2250 tape drive

Fifth-generation LTO Ultrium half-height tape drive

Today, data is a key corporate asset in all types of businesses. The ability to access data quickly and reliably is critical to your success. The main challenge for midmarket chief information officers (CIOs) is how to cost-effectively store, archive and retrieve an explosion of new information; how to protect and secure that information; and how to meet compliance requirements and make information accessible for business insight, where and when it's needed.

The IBM TS2250 tape drive—the entry-level IBM tape product family offering—is the answer to growing storage requirements. Incorporating the industry-leading LTO Ultrium technology, the TS2250 tape drive is suited for handling backup, save and restore, and archival data storage needs with higher capacity and higher data transfer rate than previous generations. In addition, IBM LTO Ultrium 5 technology is designed to support media partitioning, and LTFS technology. It also continues to support encryption of data and write-once-read-many (WORM) media.

The TS2250 tape drive is an excellent tape storage solution for businesses requiring backup and low-cost, archival storage of their data. TS2250 provides a physical storage capacity of up to 3.0 TB (with 2:1 compression) in conjunction with the IBM LTO Ultrium 1.5 TB data cartridge,

nearly double the capacity of LTO Ultrium 4 cartridges. The data transfer performance of the TS2250 tape drive has increased over the previous LTO Ultrium half-height generation with a transfer rate of up to 140 MBps with 6 Gbps SAS interface connectivity. The drive offers two SAS and one Ethernet port per drive to improve availability.

Advanced features

The TS2250 tape drive features 6 Gbps SAS interface for connection to a wide spectrum of open-system servers. TS2250 is designed to address your backup and restore needs. The LTO Ultrium 5 tape media provides partitioning support, which,

in conjunction with LTFS technology available via IBM Spectrum Archive, provides customers with the ability to have file-level access to tape data. This support helps quickly locate and update information on the tape media.

LTO Ultrium 5 technology is also designed to support encryption of data. The hardware encryption and decryption core and control core reside in the LTO Ultrium 5 tape drive. In addition to reading and writing to LTO Ultrium 5 tape cartridges, TS2250 can read and write to LTO Ultrium 4 cartridges and read LTO Ultrium 3 cartridges.

Software support

You can help increase the power of the TS2250 tape drive by managing it with tape management solutions such as IBM Spectrum™ Protect or other, third-party, storage software.

Media

You can order data and cleaning cartridges for the TS2250 tape drive at the time of purchase or from IBM Media, IBM Supplies distribution and authorized dealers. Call 1-888-IBM-Media (1-888-426-6334) toll free in the United States and Canada.

IBM TS2250 tape drive at a glance

Available configurations	Model 3580 H5S—One LTO Ultrium 5 tape drive, 6 Gbps SAS interface PN 3580S5E
Tape drive type	IBM LTO Ultrium 5
Physical capacity	1.5 TB Native; 3.0 TB with 2:1 compression
Number of tape drives	1
Number of tape cartridges	1
Data transfer rate	Up to 140 MBps native
Media type	IBM LTO 5 data cartridge IBM LTO cleaning cartridge Call 1-888-IBM-Media
Weight	4.3 kg (9.5 lb)
Power requirements	100 – 240 V ac, 50 – 60 Hz autoranging
Dimensions (W x H x D)	21.3 cm x 5.8 cm x 33.2 cm (8.39 in. x 2.29 in. x 13.07 in.)
Warranty	Three-year limited warranty, customer-replaceable unit (CRU) and on-site service in most countries, next business day 9x5, service upgrades available

For more information
