

# Everyone has questions about your cluster

How many resources is my line of business consuming?

What's the cost for my project?

Are we fully utilizing our software licenses?

Do we have enough resources to meet demands?

Can you answer them quickly and accurately?

You need to know what's going on in your cluster, and creating the right reports to address these questions can be difficult and time-consuming.

## Simplify reporting with IBM Spectrum LSF Explorer

A powerful and lightweight solution for IBM® Spectrum LSF clusters

Gain the benefits of fast, intuitive and efficient reporting based on open source Elasticsearch

Enable both business and technical users to quickly create reports and dashboards

Generate flexible views of your resources, from a single job to overall cluster health

Learn what Spectrum LSF Explorer can do for you
