

# Join us at SCOPE Summit 2020 for Clinical Operations Executives

February 18-21, 2020

## See you in Booth #317

Check out IBM Watson Health's booth at SCOPE. Let us show you our latest product, IBM Study Advance, and see how we apply real-world data to protocol design.

### February 19-20, 2020

Wednesday 9:40AM-6:45PM (ET)  
Thursday 10:15AM-4:10PM(ET)

## Get smarter in Protocol Design

Join IBM Watson Health leaders Rob DiCicco, Deputy Chief Health Officer, Life Sciences and Sunny Reed, Life Sciences Offering Manager and learn ways to help reduce protocol amendments and improve clinical trials.

### February 19, 2020

Wednesday 4:20PM (ET)

## Improve Clinical Study Performance

Follow the "Innovative RWD-based Studies" track and learn about "Improving Clinical Study Performance with Collaboration and Data during Protocol Development".

### February 20, 2020

Thursday 12:15PM (ET)

## Network. Network.Network.

Attend the IBM Watson Health reception and talk with our industry specialists about trends and hot topics.

### February 20, 2020

Thursday 6:15PM (ET)

Connect with [Dana Darst](#) in advance to set up a meeting at SCOPE.

Can't make it to SCOPE? Join industry experts for an [IBM Watson Health](#) webinar where they will discuss the challenges caused by a lack of international harmonization for standard protocol templates and present current ICH CeSHaP strategies to minimize these challenges to improve the protocol authoring process.
