## Highlights

- Streamlines implementation of IBM Storwize V7000 disk systems to help accelerate ROI
  - Offers highly skilled IBM storage specialists to deliver implementation services on time and within budget
  - Helps provide a more predictable implementation with reduced business disruption and risk.
- 

# Implementation services for IBM Storwize V7000

*Implement IBM Storwize V7000 with ease for faster return on investment (ROI)*

In today's fast-paced environment, as the amount of critical information continues to increase, efficiently managing and storing data is a growing challenge. Your organisation cannot afford to lag behind the competition or to experience lengthy business disruptions when implementing new storage technology. You need to accelerate implementation to realise your ROI more quickly, but you may not have the in-house expertise available to complete the implementation. You need an efficient implementation plan that minimises the impact on your business.

IBM Implementation Services for disk systems – IBM Storwize V7000 can help you streamline the implementation of your storage solution. Using a comprehensive approach, our highly skilled storage specialists provide planning, implementation, configuration, testing and basic skills instruction to help you eliminate the need for in-house resources skilled in the technology and free up your IT staff to focus on other higher priority business initiatives. By enabling you to take advantage of new storage technology more quickly while minimising business disruptions, IBM Implementation Services for disk systems – IBM Storwize V7000 can help accelerate your ROI in IBM storage technology.

## Streamlining implementation of IBM Storwize V7000 disk systems

Using time-tested methodologies and best practices, our experienced storage experts can provide a faster implementation of IBM Storwize V7000 disk systems to help accelerate your ROI. We also provide basic skills instruction to your in-house team, enabling them to increase their understanding of implementation and product functionality and proactively enhance adoption of your IBM storage solution.

## Offering highly skilled IBM storage specialists to deliver implementation services

IBM offers experienced storage professionals, located worldwide, who specialise in IBM System Storage disk systems technology. By using these resources, you can make the implementation process smoother, faster and more efficient, so your solution is delivered on time and within budget. While our storage specialists help plan for, implement, configure and test IBM Storwize V7000 disk systems, your IT staff can concentrate on higher priority business initiatives.

## Providing a more predictable implementation with reduced business disruption

We provide implementation services for IBM Storwize V7000 disk systems at a fixed price and scope, so you can estimate your budget requirements. Our storage specialists use time-tested methods and tools, combined with strong project management skills, to help minimise business disruptions during the implementation and deliver more predictable results.

## Why IBM?

Our worldwide network of highly skilled storage specialists employs time-tested methodologies and techniques to implement IBM Storwize technology. With IBM, you use a single vendor to purchase storage hardware, software and the services needed to efficiently implement these products. Our services provide an extensive solution that includes planning, implementation, configuration, testing and basic skills instruction, resulting in an updated storage environment that can accommodate your data growth.
