

DS8884 + IBM SAN + z13s

World-class data systems optimized for the cognitive era, designed for enterprise of all sizes

MOBILE

35%

Mobile driven transactions are expected to grow 35% annually through 2017 ¹

ANALYTICS

2.2x

Organizations that implement analytics are 2.2x more likely to outperform industry peers ²

CLOUD

60%

60% of businesses are transitioning to the cloud ³

DS8884 + IBM SAN* + z13s

Optimize your infrastructure for the cognitive era with DS8884, IBM SAN* and z13s

32% reduction on batch times

66% faster DB2 transactions

58% higher reliability

300x reduction in link errors

99.9999%

Up to 99.9999% available mainframe-network-storage infrastructure

1.6x faster DB2 performance for faster analytics with Power8 processors, new I/O bay, 16Gb links and intelligent I/O infrastructure

Reduce cost and optimize utilization of ISL bandwidth
