

# IBM DBA Software Services Assets and Utilities

*Empowering users and administrators to connect,  
communicate and realize their requests*

---

## Highlights

Take advantage of your platform in more places and in more ways

Empower users by surfacing experts and increasing knowledge throughout your organization

Increase user engagement with powerful administrative and analytics tools

Leverage your platform more quickly by migrating your existing data

---

IBM Software Services offers new applications to help you realize an increased return on your in ECM investment. These applications help user to handle requests easier, to individuals the application and allowing them to rapidly to implement new requirements. Knowledge and ideas can be found through analyzing content from multiple channels and sources.

When those things happen, innovation and business execution rates increase, better decisions are made, and customers and employees are more engaged and satisfied. Furthermore requests can be realized much more efficient and finally it saves costs in executing.

---

## *Archive and Export Tools*

High volume document in- and export to/from IBM backends for several formats.

### ASSETS

#### IBM AFPArchiver

Get your AFP-Data archived fast and easy. Import large number of AFP-documents within short time into IBM FileNet repositories. Furthermore optionally, resources can be split out and stored as separate resource group files, which reduces the storage for archiving.

#### IBM BatchIt

Get your Content archived fast and easy. Import large number of documents within short time into IBM FileNet repositories.

#### IBM Export for FileNet Image Manager

Exporting of any set of files as documents from IBM FileNet Image Services (IM) into the filesystem.

#### IBM TEXTImport

Get your TEXT reports archived fast and easy. Fast and easy import of high volumes of data streams into IBM FileNet repositories. Compressed deposition of documents in the repository.

## OFFERINGS

### IBM Content Restore for Emails

This tools provides highvolumne restore for Emails, archived into an IBM Content Respository (IBM Content Manager or IBM FileNet Content Manager) into the inbox.

### IBM FileNet Image Manager PC Form Conversion

Remove old IBM FileNet Services PC Forms to a standard format. The tools converts IBM FileNet Image Manager PC Forms of IBM FileNet Image Services to a JPG format where the new images with the original indexes values will be re-imported into Image Services using the original Document Ids and entry-date.

---

## Clients

---
