

WHO IS HELPING YOU MAKE THE MOST OF **CLOUD**?

The commercial* sector is rapidly adopting cloud

53%

of commercial sector companies in the Czech Republic is already using cloud and within 2 years additional **38%** will step in

Its use is increasingly a business choice, not just an IT decision

60%

of business leaders say they're influencing cloud decisions

But security is top of mind

Appropriate security is the #1 requirement among IT and business decision makers

64%

of Czech enterprises in the commercial sector prefer private cloud solutions, operated solely for their organization

Deciding which work to move to the cloud is difficult

Only 50%

of business decision makers can clearly define requirements for migrating applications to cloud

And insufficient skills can be a major hurdle

Only 23%

of enterprises have necessary talent in-house to build cloud solutions

Learn how IBM can help you make prudent decisions about when, where and how to implement cloud solutions
