

Data Sheet

A digital templating solution to create preoperative orthopedics plans

Merge OrthoCase™

You invested in a digital imaging system for your orthopedic practice. Wouldn't it be beneficial for your surgeons to be able to digitally plan surgery for each case from any location?

Now they can.

“According to the Agency for Healthcare Research and Quality, more than 300,000 total hip replacements are performed each year in the United States.”¹

¹Total Hip Replacement. American Academy of Orthopedic Surgeons.

How we help you

Merge OrthoCase lets your orthopedic surgeons digitally create preoperative plans from any web-based location* using a comprehensive digital template library and orthopedic specialty tools, for better planning—and better outcomes. Merge OrthoCase creates preoperative orthopedic plans with digital templating. With Merge OrthoCase you can:

- Select and position implant templates and quickly take anatomical measurements
- Create preoperative reports with complete case information and automatically store in PACS
- Incorporate custom measurements
- Securely share surgical plans with your orthopedic vendor and others who help you plan for surgery.

Watson Health Orthopedics Solutions

Watson Health offers a suite of solutions designed to meet the unique needs of orthopedic practices and surgeons for both patient information and image management. Watson Health orthopedic solutions are intended to help you:

- Improve the efficiency of clinical and support staff, so that your practice can see more patients every week
- Manage images and making medical images accessible from anywhere, any time*
- Plan for surgery by coordinating surgical and support staff preoperative readiness

Developed by orthopedics specialists, Watson Health orthopedic solutions mirror your existing charting and patient care workflow, increasing the long-term adoptability and satisfaction of users.

Watson Health Solution Suite
