

# How can businesses get disruptive services off the ground faster?

**ista UK**

**ista UK** helps property managers, homeowners and tenants to manage their energy and water consumption

The company aimed to help apartment-block tenants with shared heating gain greater control of their **spending**

To bring its **SmartPay** product to market fast, **ista UK** chose a rock-solid payments gateway in the cloud.

The **security-rich** platform enables **ista UK** to accept payments at low cost and in real time

Which helps property managers to minimize the **risk of bad debt** ...

And give their tenants **peace of mind**
