

# Watson Developer Cloud Enterprise

Build a launchpad for cognitive innovation within your enterprise

## Seize opportunities for disruption using cognitive capabilities

- Deepen relationships with your individual users and customers
- Amplify knowledge, reimagine workflows
- Transform your enterprise

## Power cognitive innovation with Watson

- Scale expertise and accelerate results
- Teach your applications to understand, listen and speak, see, and learn
- Unlock the potential of data within your enterprise and beyond

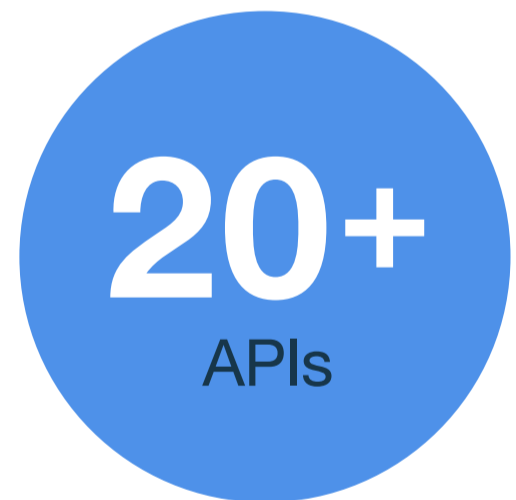

## Build cognitive expertise within your own developer teams

- Access dozens of Watson APIs, application starter kits, and code resources that any developer can use to process and gain insights from unstructured data within minutes, not months
- Ignite your developers' progress with onboarding services, including a live instruction (via phone) and unlimited access to online training through the Watson Academy
- Increase velocity of innovation with monthly mentoring from a Watson subject matter expert

## Choose Watson Developer Cloud Enterprise

- Exclusive direct access to leading Watson experts
- Proprietary and custom-trainable capabilities for unique insights
- Wide breadth of flexible services you can use alone or in combination to derive breakthrough insights
- Proven technology used by hundreds of customers worldwide

**Start today**  
[ibm.biz/WatsonTrial](http://ibm.biz/WatsonTrial)

Give your developers a free 30-day trial of Bluemix, the exclusive source for Watson APIs. Then contact your IBM representative for more information on Watson Developer Cloud Enterprise plans to suit your needs.
